Make money playing Runescape

A free guide by RootBite

This method is not to be sold.

Let's get started.

Things you need!A oldschool runescape account SITE: <http://oldschool.runescape.com/>

A PayPal Account

Java installed on your PC (Works on any OS)

A free oldschool runescape bot <http://dreambot.org/>

OR OsBuddy if you want to manually level up and make money.

Alright this thread will contain 1 method for obtaining real money for playing Runescape.

Anyways, the first method, will be based on leveling up a account for either PVP(look up builds such as Tank Archer (range and Defence are high)), or a skiller account.

Firstly. I'm going to go over making money with a PVP account.

So I wont go over how to actually train up your account or whatnot (MANY videos on youtube cover this, as well as easy to follow guides). But there are 2 types of PvP account Free 2 Play, and Pay to play, members in Pay 2 Play have different weapons to choose from than a free to play member.

Generally free to play accounts are, Ranged Tanks, Pure Range (They only level Up range), Pure strength or attack, a pure mage, or a mage tank. (The reason people dont usually level up ALL combat skills, is because, the way runescape works is if you level up attack, strength, defense, and magic, you will be a higher combat level, than someone with only attack, range, or magic, leveled up really high.

(and chances are, since they will hit harder then you will they could/would win)

But for P2P, there are many other builds (FAR to many to list, but Ill name a few that MANY people want, Obby Mauler, G Mauler, Void Archer, and just a pure archer.) Look up builds for those 4, and build the account with the one you seem to be the most fun for you, since you cant really bot a PVP

account, (you can only bot woodcutting or fishing to earn money in reality), so the more fun you have doing this the better of you will be, as you want find the grinding tedious.

Your combat level defines who you can fight, so a level 100 combat level cant fight a level 30, and people get really strategic, because if you are combat level 33 with level 15 for all combat traits, a level 30 who only leveled up range will do more damage, than you ever could, and chances are will kill you. So you need to pick a build, and just go with it.

ANYWAYS, choose your build, (F2P or P2P, I forgot to mention, you could build a P2P character without having to buy membership, the build is just one that will be used for a P2P account, technically all you will be doing is leveling up certain attributes in which you can do P2P or F2P), look up a guide on building/leveling it up, and then follow off of that.

To earn gold coins (the ingame currency) so that you can buy items to train with, so this is where you can turn on a bot, to cut down logs, or go fishing (fishing is VERY profitable, especially if you get to the fishing level where you can go harpoon fishing to catch Swordfish which is a very easy 150k an hour).

The cool thing about the bot I gave you, is that it has ALOT of plugins, for automatically cutting down trees, or automatically going fishing for anything, and then banking the items.

HEADS UP, YOU CAN GET BANNED FOR BOTTING SO IF YOU DONT WANT TO RISK BEING BANNED, DO NOT BOT!

Anyways, so you trained up your account, and you are ready to sell the account to make your money, dont be a jag bag, and leave the account naked, with no items, gold, or anything. Gold goes for \$1 for 1.5million pieces. So if you really have nothing on the account get \$3million coins on it or something. Just to not make the buyer feel scammed, and so they can buy the weapons for the account and start playing.

So, head over to playerauctions.com, create your account, and add your paypal to it. Click "Sell", and then set up the form to sell your account, make sure in the title its like "[OSRS] - Level [Level] [ACCOUNT TYPE]". Than in the description, put its levels, put its account type, amount of money it has, amount of items it has, etc. WHEN someone buys it, they will contact you via email, and ask you to change over the accounts email to theirs.

Think of a price you find reasonable. You can even search the site for account of the similar type, or any account in general, and decide how much you will put it up for.

WELL. I hope you enjoyed this guide. It took 2 school periods to type this up, and if you have any questions ask away!

If you feel I left anything out let me know and I will ad it in!

Have a nice day ?

Duke Da Beast - February 23, 2016, 12:26 pm

a way more profitable yet riskier method is to build a staker account, buy 5mill gp, stake it, turn it into 50mill, sell it. rinse and repeat

MightyKnight - February 23, 2016, 2:16 pm

Thanks, but im still confused. Do i just make a account and bot it right form the start?

Hey RootBite,

Thank you for this awesome guide. I have a few questions though.

Would you recommend botting on multiple accounts so that you can make money faster?

Also what are the odds of an account I do not bot with getting banned along with accounts that do bot?

Is it worth purchasing premium bots? I noticed that a few of the free ones are kind of buggy.

Never played Runescape before but I'm interested to try this. Does this have a potential to make \$5 a day?

HumorousCharles - August 13, 2017, 11:44 am

Great method! Thank you for sharing!

CodeBreakers - October 14, 2017, 2:27 am

Trying out this method, so far lvling the character so it won't die when it start farming for woods lol.

SIM-3092053 - October 14, 2017, 8:52 pm

This is incredibly slow but can have a lot of potential. I play Runescape a lot so I know the ins and outs. The game is a grind, its tedious and extremely slow. Playing the game legit and having a maxed out character (which takes A LOT of hours), you can prolly make about 4m/h max and thats if you are really skilled (and say you sell that gold for 1.5\$/m, thats 6\$ an hour). Plus you risk the chance of getting banned for RWT (Real World Trading). The best way to make money off Runescape is to run bot farms where you have multiple accounts making money and then you sell that gold that the bots make for you. It's much more complex then it sounds and I haven't done it before so if you are interested in doing something like that, you may want to google some Runescape botting forums (I think it's against the rules here in Hackforums). But don't get me wrong, the method OP has stated still works for people who enjoy the game and would want to make a few extra bucks so good looks to OP who didn't clickbait u guys lol.

Bollejef - October 23, 2017, 4:40 am

This actually made me a lot of money in the days RS3 gold was still high :-D

Smexy - October 23, 2017, 2:55 pm

I've sold alot of gold during the days that you could bot till lvl 97 fishing without ban.

It was at the start of 07, I had 2 accounts fishing sharks, 200k an hour, so 3-10\$ a day.

Next to that I had 2 woodcutting bots running, for extra cash.

EGoyard - *October 23, 2017, 3:08 pm*

Been doing this for years just for fun... pretty food technique but the best method is to get like 10 mil and go PK and sell acct.

Kalabybis - *June 29, 2018, 4:34 am*

Did everything, got more cash by stealing from other accounts anyway :D

Tinkotutu - *August 13, 2018, 5:59 am*

Thanks man I appreciate. And hope it still working
