Thread: [I sell my private earnings method](#)

Tiwin - February 18, 2016, 12:14 pm

Hello guys, I'm in a business of since a while. Today I decide to sell my method. I'll tell you my secret on this type of business.

Yes, you can make huge income, but you need to know how. That's why I'm there.

Firstly, don't buy if you don't have money to invest. The more you invest, the more you'll win. I personnaly beggin with an investment of 40\$, but if you have more to beggin that's better.

The price will be set at \$50. But as I have no reputation in the forum I'll give a vouch copy (Already given) and sell the first "copy" at half-price. (Already sold the first copy)

All is in btc. No ebay or others things like that. You don't need to sell anything to anyone.

Of course, I don't do that by kindness. I sell my method to earn even more money. If I sold 10 copy to 50\$ it's a good profit and it don't affect my earnings because the method is unsaturable.

I'll give you my method by skype or in pm, but skype is more convenient.

If you want to contact me, send me a pm or add me on skype : max.tiwin

He gave me step by step instructions on how to set the method up. Took about 15 minutes from start to finish to get the ball rolling. It did require an investment. I chose to start with a smaller investment to try it out. However the larger the investment the larger your return will be. This method is autopilot as well, takes about 3 minutes per time you invest and then just wait from there. I just started this today so I haven't been payed yet but I will update this post tomorrow with any earnings.

I don't see why a BTC address would be proof of concept.

I mean, he could send ANY BTC address in the world. How would you confirm, that it is his without him giving the private keys?

But I understand that it is better to ask for it than nothing.

You can make more, but you'll need to invest more ^^.

dimi1810 - February 18, 2016, 12:23 pm

Im interested in your method ! I send you a message on tox , I want some informations about it, but it seems to be legit !

Actually how many you invest for earn 60\$?

It depends, but on average 30-40\$ for a 60\$ earning. I'll check tox now :)

I don't have 5k profit. When I said long time it means 3-4 months. And I never lost a penny in my investment. I am an honest person . You probably won't become a millionaire with this method, but you can easily repay the purchase method.

No sense!

When you sell a method for \$50 I expect at least some good profit and in no time, that's a real method...at least for a hacking forum.

My opinion tho, people sell shit methods all the time anyway.

People who said; Make 6000\$ / month without doing anything sell shits yes. I told you honestly that with this method, you'll easily refund the 50\$ paid for it. And if you can invest 250-300 you can generate huge amount. There's no minimum and no maximum investment. If you don't trust me don't buy!

I received the method as a vouch from this user. We communicated on Skype and he explained it to me. So far the method seems solid. He gave me step by step instructions on how to set the method up. Took about 15 minutes from start to finish to get the ball rolling. It did require an investment. I chose to start with a smaller investment to try it out. However the larger the investment the larger your return will be. This method is autopilot as well, takes about 3 minutes per time you invest and then just wait from there. I just started this today so I haven't been paid yet but I will update this post tomorrow with any earnings.

Update: Ok so it seems as though you will earn 120% of your initial investment every 3 days. I invested \$30 and my earnings so far is \$12. Tomorrow it will be \$24 and then the day after is \$36. So 20% of \$30 is \$6 profit. I'm going to go in heavy next time. But from what I've seen so far this method is definitely worth it. As long as you have money to start with.

So this is gambling or not? It sounds like gambling.. OP keeps saying you need a good investment to get decent money flow and you just confirmed that, but he previously said it isn't a gambling method?

You invest a certain amount and get a return of a 120% over 3 days.

Hello,

No it isn't a ponzi at all. Not a gambling site too. I can't tell exactly what it is without leak the method. But I think nobody on HF knows this method.

You can add me on skype if you're interested, and ask me more questions.
