Thread: [How much have you made GAMBLING?](#)

Doodlegod - February 18, 2016, 3:10 pm

I'm wondering if any other members of HF are lucky as fuck?

I am pretty lucky, but also very patient and strategic.

I've made 24 BTC via BustaBit, most being around 12 total in one day but the rest was over a few months time.

I'm probably even or possibly even negative a bit on SatoshiMines because I get too greedy and go all in and shit. lol.

?Shady - February 18, 2016, 3:11 pm

I'll tell you one thing, it's not nearly as much as what I've lost gambling.

Kinguin - February 18, 2016, 3:13 pm

Like -\$400

Got any special Bustabit strategy?

Ouch man! I can help you out if you have an investment ready, I helped a fellow HF member out two days ago turn \$40 into .8~ BTC and then I told him I'd be right back. I came back like 20 minutes later and he was bankrupt LOL. Shoulda waited for me :(

Terror ?quad - February 18, 2016, 3:14 pm

I've won more then lost. Although not by much. That's why I stopped gambling. It's stupid if you don't have that money to lose.

Very true. Everyone loses, I've lost countless times but I'm just lucky enough to win more than lose.

Unfortunately no investment at the moment, got way to much IRL stuff going on :p but I will most certainly be in contact I'm the future if you could help me out ?

Ouch though, that kid must've been pissed. He probably stayed up all night repeating "I should've waited."

And oh yeah, I'm sure we all know that feel. I was playing Satoshi once and got up to a few BTC from barely \$20. I went 1 milli in and lost first click twice in a row. That night I just sat there and was like "why the fuck did I go all in"

albertn - February 18, 2016, 3:21 pm

Lost \$7k, been clean for a bit though. If u have a good method LMK!

tetjo - February 18, 2016, 4:18 pm

I managed to make 1btc on BaB all auto pilot.

Lost it all on satoshimines using pluscoup method.

redstone - February 18, 2016, 5:39 pm

Purely BTC gambling, I went from \$30 -> \$120 and then \$15 -> \$180 the other day, so I am at \$300 (0.72) right now.

I am tempted to get up to 1 BTC but I tried it before and almost lost it all.

Monati Melano - February 19, 2016, 5:00 am

Only lost never made any profit :(

Errors - February 19, 2016, 5:19 am

Around 15 BTC in the last month, it would be nearly impossible to calculate how much I've won and lost as I restart so often....

If I go neg this month, I'll likely take a brake, currently up only .3 or so, but was neg 2 BTC

h - February 19, 2016, 5:21 am

I started gambling on Busabit for the First time the other day and made 1.2 BTC

redstone - February 19, 2016, 8:37 am

How do people even play Bustabit? That shit gets boring as fuck for me.

I just go on Prime Dice and make small bets, get bored, then all-in and cry.

Arrakis - February 19, 2016, 8:50 am

This week I've made \$150 from \$1 on BaB and a little more on SatoshiMines. Gotta keep them lights on and the heat going yakno?

McDolands - February 19, 2016, 9:06 am

Dowls - February 19, 2016, 10:02 am

On bitcoin, nothing. I've actually lost a lot.

on sports/csgo I've made more than I've lost for sure probably not too much though.

Bowd - February 19, 2016, 3:58 pm

I have won more than lost on Bustabit, I think I've made 0.5 BTC.

Savoy - February 19, 2016, 4:52 pm

Stahp mang!

You're gonna bust soon enough withdraw! withdraw!

PurpleIsAColor - February 22, 2016, 11:57 pm

Since BTC came out I'm in like -150 BTC on gambling.

Keep in mind that this was back when one BTC was worth pennies and satoshidice was the only gambling site.

That's memories..

But the last 6 months, I am not even sure.

I've had days where I've won 1 BTC, and days where I've lost. On Bustabit I'm in 0.2BTC profit, but I've lost a lot on primedice, satoshimines, and other sites.

????? - February 23, 2016, 1:54 am

Yes, if we go greedy, we lost everything.
