Thread: [Weekly Instagram Marketing Tips & Tricks](#)

animestuff1 - February 19, 2016, 7:33 am

Hi Everyone - Fairly new member here. I have gotten really into social media marketing over the past few months. I am currently managing 4 Instagram accounts, 1 personal and 3 for business ideas. I plan to use them all for various monetization strategies.

Since I am dedicating a lot of time to this specific niche, I am starting a weekly email blog about Instagram Marketing Ideas. I will send one in-depth article a week. The first article is a complete guide on Instagram contests, where I focus on the different types and the proper implementation. I have several other great topics planned and will be doing interviews with established brands in the future. Please sign up here if you are interested: www.instagramhaus.com

If you have any good topic ideas or suggestions, please let me know.

Eventually, I hope to add a full-time blog, a video course or pdf guide as well as gain consulting clients from small to medium sized businesses. Thanks again for everyone's help and advice on this forum. I don't think I would have been able to make a big move like this without all the free anecdotal knowledge here.
