Thread: [Official Group - Looking for Userbar/Ficon + Thread graphics \(\\$75\)](#)

Krave - February 19, 2016, 3:34 pm

Group name: The Order

I need some graphics done for my upcoming group called The Order.

I am looking for:

Userbar - 136 x 42 pixels(width & height)

Forum Icon - 40 x 40 pixels (width & height)

Thread header/thread separators

These all need to have the same theme. I am leaving the designs completely up to the people who enter. I have no set theme or colours in mind. Be creative.

Winner gets \$50 BTC + group entry.

\$75 if you do not want to be added to the group.

If I really like another design but you don't quite make it, I may give you a small reward too.

I will choose the winner when I'm happy with the entries. Good luck.

Narrate - February 19, 2016, 3:35 pm

I will be helping in the selection process, be sure to make the userbar clean!

GreyHatZone - February 19, 2016, 3:35 pm

Wait is this an official hackforums group?

If it is good luck running the group!

minimalist - February 19, 2016, 3:35 pm

Read about you buying the group in beslim's thread. Good luck with finding a designer :)

Sure, why not. Probs by like \$20.

How sure are you of this group actually being bought buy you? Not trying to sound rude or anything, just saying. I've had past encounters where the almost-owners were happy with the designs but never ended up purchasing the group, therefore not purchasing my work.

I hope will check in here from time to time :)

Here's my entry, and first userbar entry on this forum, I would not normally enter competition style threads but I'm new here and establishing myself in this way would be a great start.

Remember these are just concepts at the current time, after doing some research on "The Order" a Phoenix seemed to represent this the most.

I might be wrong but I swear I have seen that userbar somewhere before.

Either a multi-account or a ripper ; <https://i.imgur.com/96H85gv.png>

I'll go with multi-account because of the thread design he made, it has "Parathis Network" on one of the thread designs, lol. <https://imgur.com/BMbs8mD>

Parathis requested designs from me previously. I have him on Skype actually and he's online once in a while, he asked me to create this user-bar a while ago and never paid me for it, I saw the thread name and it reminded me of the userbar (which has never been used). I also made the Parathis thread for him as I was going to team up with him on his Graphic designs, that's actually how I found this forum, so no I've not ripped anything (I can show the full PSD if needed). I also never gave him permission to re-sell this userbar (or even use it) as he never purchased it.

tl;dl If you would like me to remove my submission that's fine, I just know this design was never used (he never received a PSD) and I didn't think it would be a problem!

100% sure. It's just taking a few more days to get all the funds due to personal limitations. I would pay you anyway even if the group didn't work out.
