Thread: [Would this be useful for you CPA guys? \(Youtube Ranking\)](#)

TheVBScripter - February 20, 2016, 6:07 pm

Hey you all,

WROTE THE TUTORIAL/EBOOK! SEE SIGNATURE :BLACKHAT:

Anyway, I want to ask you guys if there is still interest in YouTube Ranking tutorials?

I earned \$2000+ with CPA (will post pictures tomorrow) and I did that with basic SEO knowledge, YouTube manual optimizing and GSA tools for ranking from Rank 5 till Rank 3/1.

If I get enough upvotes, I will write a tutorial based on how I ranked YouTube video manually.

This will be a tutorial based on how to improve your YouTube video (to rank it, not the video itself) without using GSA or anything.

It's not guaranteed that my tutorial will rank every video, it just helped the videos rank organically without buying views, likes or etc.

Please vote whether you think it's good or not ?

Votes are looking good so far!

I made a summary of my tutorial, like what I want to discuss/show.

Summary of my potential tutorial:

- example with a real video of one of my niches
- how to choose/pick a title for your video
- how to check your video competition
- how to improve your video's SEO manually
- how to attract attention to your video between others

What I wrote so far (for today)

I wouldn't do this as this would ruin the market in youtube for some niches.

Keep it for yourself mate, although I'm interested in it, I prefer not having these kind of things public to be honest hehe.

Just keep it for yourself and profit ;)

I'm keeping all my methods for myself as well

I would be very interested in this, because I earned some reasonable amount of \$\$ with CPA when youtube 301 instant rank worked.

So this would be great, to get some advice to rank video to top even without channel authority.

But as previous poster mentioned, once shared everybody will flood the method then it won't work

anymore.

But yeah, better to keep to yourself. i wil try getting back with cpa on youtube with some videos trying to rank them.

And profit as much as you can.

Teaching how to SEO YouTube? That would be beneficial. I know some methods myself and there are a few public ones floating around.

I'm keeping all my methods for myself as wellIt's not really a method or anything, just basic things I added/adjusted/created after I uploaded my videos to YouTube.

I don't think that my tutorial would be harmful, but thanks for voting anyway, I will keep an eye on the results ?

Anyway, thank you for your vouch! I appreciate it!

I could add a few extra's to my tutorial once I got enough upvotes and comments ?

I heard that some CPA guru's said that YouTube was going to die, thanks to the flaggers, outsourcing and thanks to saturated niches, but I believe you can always make money with saturated things, if you give it a personal twist ?

@ALL,

Thanks for voting! I will keep an eye out on my thread! ?

Yeah i'd like that. Sounds helpful :)

Asset - February 21, 2016, 1:14 pm

You should share it. Some people need to learn how to use YouTube for their campaigns.

Nah, So many tutorials out there showing people how to do that. Everyone here is like METHOD PLS, but there isn't a set method for ranking there are certain steps you always take but its like a bike ride you adjust as you go along most of the people who ask for methods are lazy and won't even do the method.

Thank you for your comment!

Quote:but there isn't a set method for ranking there are certain steps you always take Correct. I am going to show new members the steps they have to take in order to climb the ladder of Youtube Video ranking. It's not hard work, it's not a "method", it's just knowledge that you use which benefits the rank of your YouTube video ?

Quote:the people who ask for methods are lazy and won't even do the method Again, it's not a method. It's just steps that I take after creating (and before you finish the video upload) that will increase the rank of your video organically.

Also I will add a few tips on how to get more visitors to your channel, other videos and more.

It's 100% not a 'method' like Rank with GSA, buy SEO outsourcing or anything.

It's like you add Capital letters to a sentence to EXPRESS how important Certain things are. It's no method either, it's just a way someone can write to improve their content ??

Is it allowed to bump these threads?

Anyway, I'd like to know if more members are interested in this?!
