Thread: [Secure Verified Twitter & Secure Verified Instagram](#)

Skirtt - February 21, 2016, 12:50 pm

Might sell as a bundle, but also selling seperate. Both accounts are fully secure and should not get unverified.

Sold a verified IG yesterday to user "SpK" he can confirm the account is completely secure if you want a vouch etc.

If you are interested in either the Twitter or the IG (or both) send me a PM and you can receive more information.

As stated above these accounts are SECURE and hence cost more than the unsecured accounts you might see being sold

You can change the IG to the same handle as the Twitter and remain verified.
