Thread: [WILLING TO HELP new people... Botnets/Stealers/Rats/ Social Engineering](#)

.Lynx. - February 22, 2016, 12:05 am

Hello!

Im willing to help people who are having some trouble with:
Botnets/Stealers/Rats/ Social Engineering in general, including problems with source codes etc
(VB, C#)....

I like cooperating with new people :) So if anyone needs anything , feel free to PM me or reply to this thread with your skype name , i will add you and i will try my best to help you.

Insane Developer - February 22, 2016, 12:19 am

You are new.

You have negative rep

DWC

First of all....

New to what....Sutff i mentioned in the thread ? Programming? Hacking ?

You have a good sense for humor....

I was -repped by a skiddie... Take some time and maybe read my threads before saying something and stop being ignorant.

Regards.

pop_shell - February 22, 2016, 1:07 am

My fucking dad doxed me, can you help me??

Yes. Skids who are skilled enough to become Ub3rs.

And I was just saying DWC. Anything wrong with it?

And you know programming. Then code your own RAT instead of teaching people how to use Dark Comet, which is old, obsolete and just like you.

And you know programming. Then code your own RAT instead of teaching people how to use Dark Comet, which is old, obsolete and just like you. You're a fucking retard too lmao stfu dude you only been on the site for like half a year and criticize other people's tenure. Wtf does programming a RAT and using a RAT have a connection? One is a faggot making shitty malware in some .NET language, and the other is a faggot using the malware thinking that they are hacking. Either way, you're an arrogant faggot ayy lmao

OP you kinda deserved some of the flame. You're wanting to help people with subjects the inbred monster from the Goonies could understand. Help yourself, and learn useful things :)

.Lynx. - February 22, 2016, 8:26 am

I already made 2 botnets and one fully functional PHP RAT.... Not going to release it but if you will whine about it i can show you some screens....

==> Think about what you are saying, im just trying to help new users.... You are such a "HQ" user... just wow.

????ll?? - February 22, 2016, 8:51 am

oeh

could you please show me a screen of that botnet with your name under it??

perfectchaos - February 22, 2016, 10:56 am

I would like to know more about botnets but idk

'skiddie'

You shall receive no pity from me when you get de-rep bombed
