Thread: [Make your OWN Packs EASILY \[Videos + Pics\]](#)

Oddissee - February 22, 2016, 8:00 pm

Hey guys I will show you how to gather some packs via two websites I've used before.

I use these if I need a quick pack on a specific niche...

Example:

Ebony Chicks

First Website: ???

PM FOR THIS WEBSITE. ONLY HQ USERS WILL GET THIS

Second Website: Tumblr

1. Google "Ebony Selfshot Tumblr"
2. Pick a site and go ahead and leak some pics.
3. I use tumblr to gather faceless videos/pics if I need something in specific.
4. Right click on a video and "save video as..." simple as that.

All unsaturated and at use of whatever you'd like them for.

Good luck guys!

No problem, these sites are def great for verification pics such as "Feet pics" and etc.

Definitely, whenever people request pics/verification like that tumblr is one of the best places to go.
