Thread: [\\$2,400 BTC Giveaway! \[WEEKLY\]](#)

Red Sand - Sasori - February 23, 2016, 1:23 am

Since people seem to think I'd scam for a measly \$1000. I'm going to giveaway \$50 every week of each month for a YEAR.

?

Post to enter with a reason why you deserve to win \$50. I don't want to hear sob stories about family problems or bills unless you have sufficient proof. Maybe you need someone to invest in a project or you've been saving up for something special?

Wow, I agree with your negs now.

I think 75 days of being sober is quite a achievement considering I'm not taking any drugs to stay sober.

But whatever I guess.

Rolls Royce Cars - February 23, 2016, 1:33 am

The title is very misleading.

There is a girl, I have known since I was 6 or so, I have liked her since the day we met. Some days I only think about her, I even dream about her a few times a month, these are the only dreams I remember when I wake up. I want to buy a present for her.

You're giving away \$2.4kBTC over the course of a year just because of what people think about you? That makes no sense and is a waste of money. Also I doubt this is even a real contest that you will commit to.

Mr Kewl - February 23, 2016, 1:36 am

Very expensive to apply to colleges abroad as I'm applying to multiple colleges, the fees are enormous. Might help me in some way, as I'll be taking loan for education.

DesolatedColor - February 23, 2016, 1:36 am

I'd re-invest it by buying more eBooks on HackForums. And now, if I don't win then you must think that they're worthless.

I can make my own money. Again why do you need to prove yourself to a bunch of strangers online that won't acknowledge you in the long run. Donate the money to charity or something. That's a better cause imho.

I deserve to win the \$50 so I can help save up towards buying a new PC at the end of the year. I'm finishing high school this year so I'm planning to (as part of my celebrations I guess) buy a new PC to replace mine which is now around 3 years old and fairly sluggish. In addition to this I'm planning a trip to Japan with my friends also at the end of the year, so the money would also help to pay for the plane ticket :D

Saint - February 23, 2016, 4:47 am

First of all i want to thank you for doing this,

I do not deserve a price more then any other person,

But it would feel great to win once, i always try to help around HF, and share my knowledge and be a helping hand in general, lately i have been saving for my driver license, so all the money goes to

that cause irl, and it sucks so fucking much, i mean don't get me wrong i can still get my shit but i have been saving for a year without buying myself like a laptop or new guitar or shit like that and that sucks alot.

So every penny i earn online goes to a new laptop wich i really want to treat myself with because im tired of just saving up for my driver license and car.

Goodluck to everyone joining this contest.

I don't "deserve" \$50, it's arguable who actually does/doesn't but I would appreciate it. I'd end up giving away \$25 of that to upgrade a user or just give it away if they didn't want the upgrade like I did previously and then most likely keep the other \$25 till I see something cool on HF to purchase. Regardless, thanks for doing this. Really cool of you.

50\$ would be amazing for me to win! I really need a new server (vps), for all of my different kinds of weird coding projects. And 50\$ would be enough for 5 months of testing. Would really be a dream for me!!

1. I'm working on a 2 player game, where you are a big box, and where you need to help each other complete the levels by getting over different objects. The communication will be "client <> masterserver <> client", the only thing I really need to continue the development is a server.

2. I am also working on a special kind of filehosting, where you drag a file into the program, and then it automatically uploads it to your personal folder. Might be a little bit like dropbox, but at the same time very different. I could also really use a server for this project.

I am not looking to make money of this at all, but I really love playing around with coding. It is all just for fun and practice purposes.

I will happily provide proof of my 2 projects, if it is needed. :)

C'ya. :)

I deserve this because I have been working my nards off to get my education and get all of my ducks in a row. I am 6 credit hours short of having my associates in computer science, and I have been studying 90 going north for the next semester. I have been studying to try and take my A+ certification test as well so that I can get a decent IT job. I am also fixing to take a final exam in an online white hat training course, and then I am going to move on to a malware analysis course.

I am unemployed right now since I just moved, but have a couple of Websites and projects that I am using to make somewhat of a passive income. They are just not exactly where they need to be right now. It's more of a process than an overnight thing. \$50 would really help me get this A+ test out of the way since it's fairly expensive.

Thanks for the opportunity!

Hey, I deserve the \$50 btc because I have been saving it up for further studies. I need to get admission in university and I had saved like \$100 btc but unfortunately got scammed by a ponzi user. Then I have left only 28 bucks which I used in trading decred currency and suppose to earn some profit but turn out to be total loss. I know \$50 won't pay my admission fees but it will surely add something to funds. Thanks for showing generosity.

\$50 would help me a lot. I'm a starting-up music producer from Australia, looking to start producing some fresh EDM & House music. I'm at a standstill however, because after purchasing FL Studio 12 and a professional microphone, I'm stuck short for some studio quality speakers and most importantly a launchkey (MIDI controller, keyboard instrument). With these I can take my work to an upstanding level, and start producing some serious music. So, \$50 would help.

Good luck to everybody, hope you all win eventually.

'Ben - February 25, 2016, 1:42 am

I have suffered with an illness called Crohns Disease since I was 12. (I'm 22 now)

Not once during the last 10 years have I heard of a therapy called "Helminthic Therapy" with is essentially putting microscopic worms into the body.

My illness and things like Diabetes were almost unheard of 50 years ago and they believe these worms/parasites were naturally in the body back then

but as we became cleaner, more medication became available etc.. we gradually killed of these natural worms and many other things.

I have done my research and ready to give it a shot. Sadly lost almost all my BTC recently due to a bad investment.

Each does costs \$200. I need two but I don't have to get the second dose for a minimum of 2 months after I take the first.

I'd really appreciate any help I can get.

If you need proof, let me know. Not sure what I could show but I'm sure I could find something

I made a thread it on a few weeks back - <https://hackforums.net/showthread.php?tid=5139661>

Good luck to everyone that enters.

I'd like to win \$50 because I feel as if it would be extremely useful to me, as I've been playing around with investments in the stock market and foreign currencies, commodities etc and I'd like to have the opportunity to continue my adventure into it with real money, even if it's just small penny stocks. I'd also like to have the opportunity to be able to reward myself with some money to spend while I work on finishing my GCSE's (UK end of high school exams) as I'm finding it difficult to keep my head down and study/revise for my exams despite their importance for my future, and so I feel that if I have the opportunity to reward myself for studying then it will help me with my exams!

No matter who you choose, thank you for running this contest!:) Good luck to all<3

Thank you for this Giveaway!

I thought about a few things, why I think I should win \$50!

1. I'd like to get \$50 BTC so I can buy this "Legalize It" award. I smoke weed for about 6 years now and it really improved my life, especially the knowledge I have gained when reading/thinking about new ways to make money online, while being high ?

2. I bought the Emeral award and I'd like to get the Rich Bitch award as well, so why not buy it when I win a contest right ?

3. I just released a free 8 paged eBook, where new CPA marketers can read how to improve the quality of their uploaded video as well as how to increase the rank 100% organically (no investment needed). I won't say that I "deserved" it, because I think it is arrogant to say that about yourself, but I do appreciate it if I would win (who wouldn't right!) ?

Anyway. Wether I win or not, I still want to thank you for doing this! ?

Glad someone finally figured it out.

OP is a known scammer (scammed me for \$650, search his UID), he was pretty active before he scammed me and once my dispute happened and people started putting 1 and 1 together, he became inactive. All of a sudden he comes back only to give \$2,400 to the community? Yeah, right. This is literally a ploy to earn his reputation back. As you can see, he's been active recently, not to mention he frequently changes his name.

OP is a fuckwad and should be dealt with EXTREME CAUTION in any situation.

Hopefully staff will close his ass once and for all.

I deserve 50 bucks cause I want to go shopping on # before spring break. It'd probably go towards coke or something similar. I'd then share it with chicks and friends.

If you actually read this, thanks buddy. It shows dedication.

I've compiled a list of winners and set up the dates. Will start PMing winners details about when they will be receiving payments and gathering BTC addresses.

Gowther - March 18, 2016, 6:47 am

i would like to win this :)

Vobe - March 18, 2016, 6:48 am

Winning \$50 would allow me to buy something I can get very very cheap, and resell it for triple the profit.

I have a few connections and if I win, I'd happily pay you the \$50 back within a week if not sooner.

Please consider me!

Otis??????????????? - March 18, 2016, 7:16 am

If I was to win, I would invest the \$50 won into stickies/GFX for upcoming projects.
