Thread: [How to mess with someones Skype or Snapchat account](#)

Misha - February 24, 2016, 2:10 am

Hey guys, this is a really easy prank you can do to mess with your friends or enemies online. ?

Websites:

Skype: <http://www.addmecontacts.com/>

Snapchat: <http://www.addmesnaps.com/>

Go to either one of those links, and put the name of your victim in skype/snapchat name. Leave age the way it is but change gender to female. Then click Add me and wait for the contact requests to flow in.
