Thanks for the offer, I'll probably be contacting you because I really don't know who I'd trust.

Still trying to get rid of this. It's totally worth it if you can SE Steam support into removing the VAC ban.

Vac bans are at large automatic, and this automated process is the only thing that can remove it too. Steam Support are unable to remove any sort of VAC bans.

I disagree. There are cases that VAC bans have been removed, check reddit. So I do think it's possible to SE steam support.

And i guess this account will never get sold.

I've read about that, but it's more than likely caused by this:

Quote:All VAC bans are permanent - Valve has a zero-tolerance policy for cheating and will not lift VAC bans on request. Steam Support agents cannot remove or modify bans. If a round of VAC bans is determined to have been issued incorrectly, they will be automatically reversed by our servers. Creating a Steam Support ticket will not cause your ban to be removed
