Thread: - [Free Bustabit Script](#) -

TheEntrepreneur - February 24, 2016, 8:03 am

Seems that a lot of people sell bustabit scripts that are useless here i am releasing one that i use.

I wont promise profit but all i can say is its going well for me :)

Any donations to my gambling addiction appreciated :

1Jer6hHXGMpH71XCTvDmavUV2MbsbqgnDk

Code // DONT FUCK WITH EXCEPT STREAK SECURITY AND BASE MULTIPLYER

```
var baseBet = 10;
var baseMultiplier = 1.13; // Set to 1.10 if u want to be more safe
var variableBase = true;
var streakSecurity = 4; // Set to 4 for safe set to 5 for very safe set to 3 for meh
var maximumBet = 999999;
```

```
var baseSatoshi = baseBet * 100; // Calculated
var currentBet = baseSatoshi;
var currentMultiplier = baseMultiplier;
var currentGameID = -1;
var firstGame = true;
var lossStreak = 0;
var coolingDown = false;
```

```
console.log('Fucking Nigga');
console.log('My username is: ' + engine.getUsername());
console.log('Starting balance: ' + (engine.getBalance() / 100).toFixed(2) + ' bits');
var startingBalance = engine.getBalance();
```

```
if (variableBase) {
    console.warn('[WARN] Variable mode is enabled and not fully tested. Bot is resilient to ' +
streakSecurity + '-loss streaks.');
```

```
// On a game starting, place the bet.
engine.on('game_starting', function(info) {
    console.log('New Game Cunt');
    console.log('[Bot] Game #' + info.game_id);
    currentGameID = info.game_id;

    if (coolingDown) {
        if (lossStreak == 0) {
            coolingDown = false;
```

```

    }
    else {
        lossStreak--;
        console.log('[Bot] Cooling down! Games remaining: ' + lossStreak);
        return;
    }
}

if (!firstGame) { // Display data only after first game played.
    console.log('[Stats] Session profit: ' + ((engine.getBalance() - startingBalance) / 100).toFixed(2)
+ ' bits');
    console.log('[Stats] Profit percentage: ' + (((engine.getBalance() / startingBalance) - 1) *
100).toFixed(2) + '%');
}

if (engine.lastGamePlay() == 'LOST' && !firstGame) { // If last game loss:
    lossStreak++;
    var totalLosses = 0; // Total satoshi lost.
    var lastLoss = currentBet; // Store our last bet.
    while (lastLoss >= baseSatoshi) { // Until we get down to base bet, add the previous losses.
        totalLosses += lastLoss;
        lastLoss /= 4;
    }

    if (lossStreak > streakSecurity) { // If we're on a loss streak, wait a few games!
        coolingDown = true;
        return;
    }

    currentBet *= 4; // Then multiply base bet by 4!
    currentMultiplier = 1 + (totalLosses / currentBet);
}
else { // Otherwise if win or first game:
    lossStreak = 0; // If it was a win, we reset the lossStreak.
    if (variableBase) { // If variable bet enabled.
        // Variable mode resists (currently) 1 loss, by making sure you have enough to cover the base
and the 4x base bet.
        var divider = 100;
        for (i = 0; i < streakSecurity; i++) {
            divider += (100 * Math.pow(4, (i + 1)));
        }

        newBaseBet = Math.min(Math.max(1, Math.floor(engine.getBalance() / divider)), maximumBet *
100); // In bits
        newBaseSatoshi = newBaseBet * 100;

        if ((newBaseBet != baseBet) || (newBaseBet == 1)) {
            console.log('[Bot] Variable mode has changed base bet to: ' + newBaseBet + ' bits');
            baseBet = newBaseBet;
            baseSatoshi = newBaseSatoshi;
        }
    }
    // Update bet.

```

```

currentBet = baseSatoshi; // in Satoshi
currentMultiplier = baseMultiplier;
}

// Message and set first game to false to be sure.
console.log('[Bot] Betting ' + (currentBet / 100) + ' bits, cashing out at ' + currentMultiplier + 'x');
firstGame = false;

if (currentBet <= engine.getBalance()) { // Ensure we have enough to bet
if (currentBet > (maximumBet * 100)) { // Ensure you only bet the maximum.
console.warn('[Warn] Bet size exceeds maximum bet, lowering bet to ' + (maximumBet * 100) +
' bits');
currentBet = maximumBet;
}
engine.placeBet(currentBet, Math.round(currentMultiplier * 100), false);
}
else { // Otherwise insufficient funds...
if (engine.getBalance() < 100) {
console.error('[Bot] Insufficient funds to do anything... stopping');
engine.stop();
}
else {
console.warn('[Bot] Insufficient funds to bet ' + (currentBet / 100) + ' bits. ');
console.warn('[Bot] Resetting to 1 bit basebet');
baseBet = 1;
baseSatoshi = 100;
}
}
});

engine.on('game_started', function(data) {
if (!firstGame) { console.log('[Bot] Game #' + currentGameID + ' has started!'); }
});

engine.on('cashed_out', function(data) {
if (data.username == engine.getUsername()) {
console.log('[Bot] Successfully cashed out at ' + (data.stopped_at / 100) + 'x');
}
});

engine.on('game_crash', function(data) {
if (!firstGame) { console.log('[Bot] Game crashed at ' + (data.game_crash / 100) + 'x'); }
});

```

JohnnyCNAM - February 24, 2016, 8:04 am

Thanks for the share, I will try it out.

obusco - February 24, 2016, 8:37 am

I'm currently testing it.

It seems to work well. Thank you a lot :)

Edit after 5-6 hours of use :

You can expect something like this :
[Stats] Profit percentage: 51.57%

When you withdraw you should take in count that 200 bits will be use as fee.
If you plan to bet 10 bits for exemple, I will suggest you to have (with a streak security of 4) 850 bits at least. For 100 => 8500 bits etc...

TheSocomj - February 24, 2016, 8:40 am

Posting here to save this thread. Hopefully it works well!

Kinguin - February 24, 2016, 8:46 am

Looks good, how does it work?

Martingale or so?

TheEntrepreneur - February 24, 2016, 8:57 am

Hope everyone is enjoying the script kek

LegacY96 - February 24, 2016, 9:05 am

Thanks for sharing, I'll try this out

obusco - February 24, 2016, 9:07 am

(Feb 24, 2016 09:46 AM)Kinguin Wrote: [\[CITE\]](#) Looks good, how does it work?

Martingale or so?

While you are winning everything works normal.

But If you lose, it's wait for a few games, and then try to multiply the bet so you can get back what you lose :

```
currentBet *= 4; // Then multiply base bet by 4!  
currentMultiplier = 1 + (totalLosses / currentBet);
```

HQWS - February 24, 2016, 9:10 am

Thanks man, will try this out! Hopefully it will make me some fast bits! ;)

u wot m8 - February 24, 2016, 9:43 am

Not sure if I have this one confused with another one I saw, but I've seen this before and it does work quite well unless the numbers fuck you up.

Otherwise, you'll make some decent money.

Regulus - February 24, 2016, 9:48 am

Working good so far. Hopefully I'll be able to make more profit :)

Thanks man!

Jesse Pinkman - February 24, 2016, 10:12 am

Statically in the long run there is no way to win. You should experience a 1% loss to the house.

??e rando? d??c? g?y - February 24, 2016, 2:10 pm

I will test this script out in a bit, Have to exchange some paypal to btc

??? - February 24, 2016, 4:39 pm

(Feb 24, 2016 10:48 AM)Regulus Wrote: [\[CITE\]](#) Working good so far. Hopefully I'll be able to make more profit :)

Thanks man!

Dont forget about me when ya make some nice profit bro.

TheEntrepreneur - February 24, 2016, 4:42 pm

was at negative 4k this morning

GreyHatZone - February 24, 2016, 4:46 pm

Looks like a great bot, nice release bro !

The OG FurFag ? - February 24, 2016, 4:53 pm

I assume just paste in the console right?

TheEntrepreneur - February 24, 2016, 4:53 pm

The OG FurFag ? - February 24, 2016, 4:56 pm

(Feb 24, 2016 05:53 PM)TheEntrepreneur Wrote: [\[CITE\]](#) paste it on auto customAh Nice, Works pretty well. Thanks man! :D

RiperFish - February 25, 2016, 3:33 am

it's working pretty well man, thanks for sharing it with us :)

Flyrect - February 25, 2016, 7:02 am

Can someone tell me how to change bet amount ?

Shorta - February 25, 2016, 7:29 am

This has already been released on here, multiple times, and this script is known to turn out bad.

(Feb 25, 2016 08:02 AM)Kuvings Wrote: [\[CITE\]](#) Can someone tell me how to change bet amount ? Disable variablebase

aka, but it to false.

Then change the top one that says basebet.

TheEntrepreneur - February 25, 2016, 8:47 am

in one night from 500bits now upto 55k bits

Romantic - February 25, 2016, 8:49 am

I used this script the other day and Went from 69k to 116k. I didn't change any of the settings other than 1.13 to 1.2. Will be trying this again tonight.

OP PM me if you have any other advice! Alao thanks again!

Regulus - February 25, 2016, 8:50 am

(Feb 25, 2016 09:47 AM)TheEntrepreneur Wrote: [\[CITE\]](#) in one night from 500bits now upto 55k bits

Damn that's awesome. What risk level do you do with now?
Is this the one you sent yesterday or the one in the thread?

I'd like to have the one you're using in this picture though if you don't mind :)

RiperFish - February 25, 2016, 8:56 am

(Feb 25, 2016 08:02 AM)Kuvings Wrote: [\[CITE\]](#) Can someone tell me how to change bet amount ?
to change the bet amount, change this : streakSecurity, but it's risky since once you lose it gets multiplied by 4 :) , but if you have a big amount to play with, you better use " 3 " and increase the "baseMultiplier " to " 1.15 - 1.20 ". good luck.

my stats in about 4 hours :)

[img]http://img11.hostingpics.net/pics/849914Untitled.png[/img]

Sir its safer to use 4 not three

1= Your GONNA BUST

2= Youll last 10minutes

3 = Safeish youll bust within 24 hours

4 = Safer youll bust within 4 days

5 = Super safe youll bust within a week

6 = SUPER SUPER SAFE - According to the streaks youll never bust kek

Codm4n76 - February 25, 2016, 12:01 pm

Here are my results after running it for a few hours:

Bob White - February 25, 2016, 12:04 pm

So bad people are trying to sell this script on HF. Works well though with a little tweaking.

hoooooooooooooooooooooooooooo - February 25, 2016, 12:07 pm

I've been using this script on a new account for an hour or two and here are the results already.

thanks for the share anyway

LearningHacking - February 27, 2016, 2:09 pm

seems to be working well at the moment.

Sandler - February 28, 2016, 1:00 pm

(Feb 27, 2016 02:36 PM)Notified Wrote: [\[CITE\]](#) Not true!

<https://hackforums.net/showthread.php?tid=5185721>

It is true. You can be lucky and make some money, but over time you will lose it. Would be kinda stupid if you'd have a method to make always profit.

JohnyCNAM - February 28, 2016, 1:12 pm

(Feb 28, 2016 02:00 PM)Sandler Wrote: [\[CITE\]](#) It is true. You can be lucky and make some money, but over time you will lose it. Would be kinda stupid if you'd have a method to make always profit.

But what if you cashout while you are ahead and make a new account?

obusco - February 29, 2016, 2:24 pm

Hi, I had a little improvment over the TheEntrepreneur script.

First the script works well, I've tested out over 4 days now, without losing a bit. Expect a *3 on your investment over three days. But I found that when you loose, the script use a way to catch-up your loss but it don't get further, here is the improvment :

You can now set a value of bit to add : addedBetAfterLoss to -1 and it will take the variableBet (autocalculated by your balance) and add it to the newBaseBet after a loss. Set it to zero to deactivate or to a interger number (1 to +inf) to add a specified number.

Here an exemple :

I bet 6, I lose, the next bet will be 24 then 96 until you win.

with addedBetAfterLoss set to 1 the chain will be :

Bet 6, then bet 25, then bet 97.

If I set it to -1 it will be : 6, then 30 (24+6), then 126.

So it's more risk but more profit too. Other improvment will be done from the raw script.

Code /***** BUSTABIT BOT *****/

* Initial version by : TheEntrepreneur. Improved by Obusco

* Changelog :

* v1.1 (29/02) : Added a way to add special "loss bet" in order to win from loss-catchup. Set to 0 to deactivate, -1 to take variableBet

```

* or a defined number
* v1.2 (ToDo) : Permit multiple strategy + martingale + ability to force the initialBet even with the
variableBase activated.
* Other scripts :
* pastebin.com/taFL08fP
* pastebin.com/rmATUB7S
*
* About streakSecurity & baseMultiplier: See the max streak under. For a total safety I suggest
setting
* streakSecurity&baseMultiplier in accordance. For Exemple : baseMultiplier:1.10; streakSecurity :
6
*
* Stats from max streak/multiplier : (!streak <1.10=>6)
* 0.00x : 3 | 1.00x : 3 | 101:3 | [102,4],[103,4],[104,4],[105,5],
* [110,6],[115,7],
* [120,8],[125,10],
* [130,10],[135,10],
* [140,12],[145,12],
* [150,13],[155,13],
* [160,15]];
*
* Very Safe profile : streak:6 / multi:1.10x
* Safe : streak:5 / multi :1.13
* Meh : streak:4 / multi:1.13->1.15
* Greedy (except to last max ~1000 games with it) : streak:3/multi:1.25
* HardGreed : streak:3/multi:1.40
*/

```

```

// DONT FUCK WITH EXCEPT STREAK SECURITY AND BASE MULTIPLYER
var baseBet = 10;
var baseMultiplier = 1.25;
var variableBase = true;
var streakSecurity = 6; // Set to 4 for safe set to 5 for very safe set to 3 for meh
var maximumBet = 999999;

engine.stop();
}
else {
console.warn('[Bot] Insufficient funds to bet ' + (currentBet / 100) + ' bits. ');
console.warn('[Bot] Resetting to 1 bit basebet');
baseBet = 1;
baseSatoshi = 100;
}
}
});

engine.on('game_started', function(data) {

```

```
if (!firstGame) { console.log('[Bot] Game #' + currentGameID + ' has started!'); }  
});  
  
engine.on('cached_out', function(data) {  
  if (data.username == engine.getUsername()) {  
    console.log('[Bot] Successfully cashed out at ' + (data.stopped_at / 100) + 'x');  
  }  
});  
  
engine.on('game_crash', function(data) {  
  if (!firstGame) { console.log('[Bot] Game crashed at ' + (data.game_crash / 100) + 'x'); }  
});
```

I hope it will work for you well. I've managed to win 3000 bits from a 1000 bits deposit (yeah I'm poor xD).

If you like it and want a specific feature just ask I will be happy to add it.

EDIT : As it contains my name and TheEntrepreneur's name, please do not put on pastebin unless having deleted our names first. Or set the paste on private (U only)

Romantic - February 29, 2016, 2:26 pm

I lost \$125 on the original script so I'm taking a break. Nice addition though obusco

Pillows - February 29, 2016, 3:53 pm

This is the type of shit that gives you heart attacks:

Edit: I'm betting straight off of faucet so cut me some slack

Eboz - February 29, 2016, 5:47 pm

Thanks for sharing this.

Testing Now - Will post results in 24 hours.

Starting Balance: 10k

Ending Balance: Will update in 24 hours. But so far 741mBTC profit

?Optimal - February 29, 2016, 5:47 pm

Thanks for the share mate!

This is gonna be very useful!

Trafalgar_Law - March 1, 2016, 12:10 am

It's Working good so far mate :)

Thank you.

escob4r - March 1, 2016, 1:54 am

Working so far ! Started yesterday with a new account with 9000 bits and let in on for like 4/5 hours

You will loose all of your money.

While you're gambling there is always a chance you will lose all of your money. Also, that streak was over 100,000 games ago. If you're concerned about losing all of your money, set the streak security higher, or set the multiplier lower. I personally am using a streak security of 5 and the default multiplier.

itswebbs - March 10, 2016, 2:59 pm

Thank you for the script already earning a lot of bits.

xCyberxx - March 10, 2016, 3:18 pm

I lost 50k bits on a rape train. What's the highest you guys lost using this script?

```

I'm having the same issue. Anyone knows a fix for this?

Edit: Found the problem

ddosfun - March 14, 2016, 11:48 am

First of all, thanks for the share!

I got a question, what has to be enabled to prevent "losing streaks". Like for example when I lose once I do not want to participate for 5 more games.

PHP Code

```
<?php
// DONT FUCK WITH EXCEPT STREAK SECURITY AND BASE MULTIPLYER
var baseBet = 10;
var baseMultiplier = 1.08; // Set to 1.10 if u want to be more safe
var variableBase = true;
var streakSecurity = 4; // Set to 4 for safe set to 5 for very safe set to 3 for meh
var maximumBet = 999999;

var baseSatoshi = baseBet * 100; // Calculated
var currentBet = baseSatoshi;
var currentMultiplier = baseMultiplier;
var currentGameID = -1;
var firstGame = true;
var lossStreak = 0;
var coolingDown = false;

console.log('Fucking Nigga');
console.log('My username is: ' + engine.getUsername());
```

```

console.log('Starting balance: ' + (engine.getBalance() / 100).toFixed(2) + ' bits');
var startingBalance = engine.getBalance();

if (variableBase) {
    console.warn('[WARN] Variable mode is enabled and not fully tested. Bot is resilient to ' +
    streakSecurity + '-loss streaks.');
```

}

// On a game starting, place the bet.
engine.on('game_starting', function(info) {
 console.log('New Game Cunt');
 console.log('[Bot] Game #' + info.game_id);
 currentGameID = info.game_id;

 if (coolingDown) {
 if (lossStreak == 0) {
 coolingDown = false;
 }
 else {
 lossStreak--;
 console.log('[Bot] Cooling down! Games remaining: ' + lossStreak);
 return;
 }
 }

 if (!firstGame) { // Display data only after first game played.
 console.log('[Stats] Session profit: ' + ((engine.getBalance() - startingBalance) / 100).toFixed(2) + ' bits');
 console.log('[Stats] Profit percentage: ' + (((engine.getBalance() / startingBalance) - 1) * 100).toFixed(2) + '%');
}

 if (engine.lastGamePlay() == 'LOST' && !firstGame) { // If last game loss:
 lossStreak++;
 var totalLosses = 0; // Total satoshi lost.
 var lastLoss = currentBet; // Store our last bet.
 while (lastLoss >= baseSatoshi) { // Until we get down to base bet, add the previous losses.
 totalLosses += lastLoss;
 lastLoss /= 4;
 }

 if (lossStreak > streakSecurity) { // If we're on a loss streak, wait a few games!
 coolingDown = true;
 return;
 }

 currentBet *= 4; // Then multiply base bet by 4!
 currentMultiplier = 1;
 }
 else { // Otherwise if win or first game:
 lossStreak = 0; // If it was a win, we reset the lossStreak.
 if (variableBase) { // If variable bet enabled.
 // Variable mode resists (currently) 1 loss, by making sure you have enough to cover the base an

d the 4x base bet.

```
    var divider = 100;
    for (i = 0; i < streakSecurity; i++) {
        divider += (100 * Math.pow(4, (i + 1)));
    }

    newBaseBet = Math.min(Math.max(1, Math.floor(engine.getBalance() / divider)), maximumBet *
100); // In bits
    newBaseSatoshi = newBaseBet * 100;

    if ((newBaseBet != baseBet) || (newBaseBet == 1)) {
        console.log('[Bot] Variable mode has changed base bet to: ' + newBaseBet + ' bits');
        baseBet = newBaseBet;
        baseSatoshi = newBaseSatoshi;
    }
}
// Update bet.
currentBet = baseSatoshi; // in Satoshi
currentMultiplier = baseMultiplier;
}

// Message and set first game to false to be sure.
console.log('[Bot] Betting ' + (currentBet / 100) + ' bits, cashing out at ' + currentMultiplier + 'x');
firstGame = false;

if (currentBet <= engine.getBalance()) { // Ensure we have enough to bet
if (currentBet > (maximumBet * 100)) { // Ensure you only bet the maximum.
    console.warn('[Warn] Bet size exceeds maximum bet, lowering bet to ' + (maximumBet * 100) +
' bits');
    currentBet = maximumBet;
}
engine.placeBet(currentBet, Math.round(currentMultiplier * 100), false);
}
else { // Otherwise insufficient funds...
if (engine.getBalance() < 100) {
    console.error('[Bot] Insufficient funds to do anything... stopping');
    engine.stop();
}
else {
    console.warn('[Bot] Insufficient funds to bet ' + (currentBet / 100) + ' bits. ');
    console.warn('[Bot] Resetting to 1 bit basebet');
    baseBet = 1;
    baseSatoshi = 100;
}
}
});

engine.on('game_started', function(data) {
    if (!firstGame) { console.log('[Bot] Game #' + currentGameID + ' has started!'); }
});

engine.on('cached_out', function(data) {
    if (data.username == engine.getUsername()) {
```

```

        console.log('[Bot] Successfully cashed out at ' + (data.stopped_at / 100) + 'x');
    }
});

engine.on('game_crash', function(data) {
    if (!firstGame) { console.log('[Bot] Game crashed at ' + (data.game_crash / 100) + 'x'); }
});

Quote:    if (engine.lastGamePlay() == 'LOST' && !firstGame) { // If last game loss:
    lossStreak++;
    var totalLosses = 0; // Total satoshi lost.
    var lastLoss = currentBet; // Store our last bet.
    while (lastLoss >= baseSatoshi) { // Until we get down to base bet, add the previous losses.
    totalLosses += lastLoss;
    lastLoss /= 4;
    }

    if (lossStreak > streakSecurity) { // If we're on a loss streak, wait a few games!
    coolingDown = true;
    return;
    }
}

```

This part has to be edited, however I have no clue ???

AAAAAAAAAAAAAAAAAAAAH
naw niiiigggggaaaaaaa

well from what I see you modified the script to base bet 127 your fault rite there if you stayed at basebet 1 you would have won that rape train dont blame the script for your decision

Pineapple Activis - March 18, 2016, 4:16 pm

Thyank you. The bot runs of a multiplier but you changed it so it couldnt calculate but you couldnt earn it back as you lost to much.

Pineapple Activis - March 18, 2016, 4:17 pm

If I changed it, it was accidental because I clicked run and went to sleep

picoz - March 18, 2016, 4:18 pm

How do i change it so it puts the base bet up? I changed the 1 but it didnt help

TheEntrepreneur - March 18, 2016, 4:19 pm

Dont blame me when you loose money okay.

Anonymise - March 18, 2016, 5:11 pm

It keeps just betting 20 (until lose) is there a way to increase it?

rollers31 - March 18, 2016, 5:12 pm

It's just luck. I went from 2k to 22k then bust out. Then I deposited 2k again and bust out again at 7k this time.

TheEntrepreneur - March 18, 2016, 5:12 pm

(Mar 18, 2016 05:11 PM)Anonymice Wrote: [\[CITE\]](#) It keeps just betting 20 (until lose) is there a way to increase it?

Works of % you can change it but youll bust 100%

Anonymise - March 18, 2016, 5:40 pm

Meh I got 7k in there. 20 is a bit low but alright

BITCOIN - March 18, 2016, 8:57 pm

(Mar 18, 2016 03:15 PM)Pineapple Activis Wrote: [\[CITE\]](#) inb4 u post again with 0 well im up 17K so far. All good for now haha

Finesse King - March 18, 2016, 9:03 pm

Looks amazing might try it with low btc.

Anonymise - March 19, 2016, 3:01 am

I let this script run overnight on my vps. Started with 6k. Am at 12k when I woke up.

"????????????????Double - March 19, 2016, 3:15 pm

Dope!

I put in 86k and got to 87 super quick

God??? - March 19, 2016, 9:28 pm

I'm solo betting, not with a script just guessing patterns for fun

gandcc - March 20, 2016, 12:41 am

I comeback my 3k and up 11k,NICEEEE!

for 1 night
prntscr. com/ahjkc4

smoker45 - March 20, 2016, 2:18 am

It is a nice script but don't play it with a high amount. Over night it made me about 10k with 70k, then i put 400k to try it out and lost 100k in 2 min.
Thankfully I made the money myself back.

If only you played on streak security 5. ?

-Mid - March 20, 2016, 7:21 am

:p well i have 75k to burn so im gonna let this script run . Check out my progress bustabit .com /user/ splurge

gandcc - March 20, 2016, 9:36 am

Nice script, -3k->+20k.
i love u;3

SIM-2907534 - March 21, 2016, 10:07 am

Thanks for share this OP metod for BustaBit :D

ryan786 - March 21, 2016, 10:39 am

Sorry but can anyone tell me how to execute the script , thanks

Freddy - March 23, 2016, 10:46 am

Seems to be working good for now, only betting 24bits at a time and its ok so far...

Eyeborg - April 2, 2016, 8:30 am

...why do like 90% of the scripts here bet martingale or variations of it? You'll eventually lose all your cash, you know that right? You can never beat house odds. (Expect with bonus)

RedditGuy - April 2, 2016, 8:31 am

Thanks for sharing OP, I'll gladly check it out.

slim? - April 2, 2016, 10:37 am

thanks just started using this about to let it run all night

TheEntrepreneur - April 10, 2016, 10:02 am

Why are people still selling this :/

Dilema - April 10, 2016, 11:15 am

Who is selling this?

Hihhuli - April 11, 2016, 6:24 am

Hey, is this "var baseBet = 10; "

the base bet?

i have it on 10, only bets 1 bit. tried to change to 100 no diffrence

hell696969 - April 11, 2016, 9:46 am

If you want to set the base bet you have to take off variablebase

?Zero - April 12, 2016, 6:24 am

So far it's working pretty well, left it on overnight and gained 1k bits. I was having horrific nightmares of me losing all my bits, woke up to find out it was all a dream and my bits were perfectly fine.

mtmr - April 12, 2016, 9:35 am

Lol cash out. With scripts: cash. out. all. the. time.

You will loose all of them, its only a matter of time... you can never beat the house. Just cash out now man.

It may not be today or tomorrow but it will happen, ive seen someone lose 22 times in a row on 1.02 multiplier...

?Zero - April 12, 2016, 1:19 pm

Ceatures - November 13, 2016, 4:25 pm

i cant cpy can u post it somewhere else

moonier123 - December 29, 2016, 11:30 am

Thank you very much, I'll give it a try. New to this script/code, but want to learn. This is a great start. Something free to test/check!

Jesse Pinkman - December 30, 2016, 2:54 pm

Posting to try this out, I'll post back with update

Avoyel - December 30, 2016, 6:11 pm

(Dec 30, 2016 03:54 PM)Jesse Pinkman Wrote: [\[CITE\]](#) Posting to try this out, I'll post back with update

How did it go?

Jesse Pinkman - December 30, 2016, 6:15 pm

(Dec 30, 2016 07:11 PM)Avoyel Wrote: [\[CITE\]](#) How did it go?Mediocre at best.

I'm a programmer and even I cant figure out how to (after a 4 loss streak) get the script to return to the initial bet. I was doing well and then shortly after, I hit a 4 loss streak and lost a lot. The bot continued to go, but it was only with one statochi. I'd like this to return to the initial bet. Any ideas?

Teresa - January 2, 2017, 12:54 pm

<https://gyazo.com/237585be5feb55ad4383c105b7052041>

suggest not using this script

?Zero - January 2, 2017, 1:01 pm

yeah this shit is pretty bloody annoying. I gained, and i lost but eventually you will end up on a loosing streak, i would not advertise gambling here, because is not a 50 50 chance unless your really looking to put your money on the line for a big jackpot risk.

I only gambled less than 5 bucks tho.

aimware - January 2, 2017, 10:17 pm

Gambling very little over the next 5-5:30 hours while I sleep. Will report back. I'm on 1.10 and 5 as my settings bc I'm a huge pussy.

Starting with 1000 bits, ending with 197 bits.

That didn't go very well, did it?

robbenathome - November 10, 2017, 7:32 am

I don't find how i can change some value on the script but i know how to limit the loss :

As you see for example :

bet :

267

@1.05

If someone can write the good script after one loss :

second bet :

bet*2 (in my example : 534 bits)

@1.55

third bet :

bet*2 (1068)

@1.79

fourth bet :

bet*2 (2136)

@1.90

Fifth bet :

*2 (4272)

@1.95

six bet :
*4 (16832 !!!)
@1.5

with this script, the rape train is like a ghost...

Adolfstalin - *November 22, 2017, 10:07 am*

meh in the end its all gambling imho
