Thread: [hBot IRC Bot Modded.](#)

Goldmouth - February 24, 2016, 5:54 pm

Nothing special, hBot IRC VERY old stable bot Ive removed the following,

Quote:// anti's REMOVED
// LAN / Shared folders' spread REMOVED
// USB spread REMOVED
// P2P spread REMOVED
// Rar and exe's infection REMOVED

Its a very old bot but it works great. compiles well.

Download: <http://www.megafileupload.com/6a35/hBot-ModdedByHost.rar>

Password: hackforum

I didn't code this bot, I just removed some stuff i personally didn't find useful.

Does this even work on the new revisions of Windows (7+) ?

Goldmouth - February 25, 2016, 4:32 am

Yea, Flawlessly.

SIM-2198759 - February 25, 2016, 5:01 am

Ill take a look at this later, thanks for the share i guess!

buybotnet_com - February 26, 2016, 3:56 am

Thanks for share. I will test and submit report here.

Thanks again.

Goldmouth - February 26, 2016, 6:24 am

:) I know its old but very easy to modify and very stable. Im modding a ragebot that spread still pretty nice. Ill release that later next week.

bluntly - March 2, 2016, 2:10 pm

wow great to see such a great share in a while :D Never knew about this bot, might have a look on that ^^
