Hey HF, so I bought milkbone's overnight income ebook and wasn't satisfied. The ebook is written fairly bad, doesn't walk u through everything u have to do and is written in such manner that u can't understand anything u have to do exactly to get it to work. The first reason I bought it is because I saw he was offering support on skype, or as how he likes to call it " FULL MENTORING ", yeah...right. Anyway so I couldn't get this set up on my own so I asked for his help on skype and he answered after 2 days asking how he can help me. He was answering like every 30 minutes or so and was probably not even reading my questions or checking the gyazo's where I specifically ask what to do in a certain step of the process listed in the ebook.. not to mention that I asked something from the amazon form and he didn't even know what that was, then he stopped responding completely.

Payment proof: <https://gyazo.com/2224655a85dcb051db185fcff43ab5f2>

Proof of no response, from that point on I was talking alone:

<https://gyazo.com/ee97902b1e2902dba5c50e8256be8e7e>

Proof of refund policy: <https://gyazo.com/0c5dfc5266fd762862004047ae8e41cb> and this aswell <https://gyazo.com/70be1fa2d8e3a36119ae1efc92471465>

I also said on his thread that he isn't answering and my post got removed shortly after. New post on his thread: <https://gyazo.com/530b82975becab40412f3aff6926bd51> curious when this gets removed too.

I hope I resolve this issue with this user without further unnecessary discussions honestly, it's annoying and overall a childish behaviour, if you are going to provide a service then DO it not just try and end up scamming people like a 10 year old, that's why our world and humanity is falling apart not because of some kid scamming HF no I'm not referring to that, but overall about interaction between humans it's getting so fucked up and we can only do it by changing ourselves and our point of view.

Cheers HF members ?

Good to know that this guys is a scammer, thanks for letting the forums know!

?lex - February 24, 2016, 6:11 pm

It's his fault that he put: "If you're not satisfied with the method, I will refund you 100%" which makes this a legit scam report.

Nonetheless, it's your fault for buying an e-book here.

w?????illiam???? - February 24, 2016, 6:12 pm

Rule 1: Don't buy eBooks (unless you're buying mine to make \$900/hr auto pilot)

He did say "If you're not satisfied with the method, I will refund you 100%", so he should give you a refund.

GL.

I guess I shouldn't and I wasn't planning on unless I know the member or something, but I said I should give it out a try..bad choice I suppose

I was also stupid enough to buy this eBook. I was actually drunk and didn't know what I was buying. His methods do not work whatsoever and he does not provide support. He refunded me a few days ago, but it is stuck in pending.

PipeQT - February 24, 2016, 6:16 pm

Yeah.. this just happened. Kappa420

Hope this gets resolved for all of us that happen to be in this unfortunate situation ! Cheers ?

Uodate 25/02 : So he asked for my email and transaction id to refund me and i gave em to him and then he stopped answering lol ..

First of all you are not entitled to ANY Skype support, so you whining about why it takes so long to get a answer is bogus. You didn't pay for a support package you purchased the lowest tier package which DOES NOT include skype support.

Let me refresh your memory since you clearly have dementia:

Spoiler ([Click to View](#))Do you spy a refund guarantee for the Value package? Do you spy a guarantee of support from the value package?

Also, I love how you find a post of me offering a 100% refund from months ago yet you can't read the original post on the sales page.

I agree with William,

Are you some kind of special specimen, u clearly said u are offering refunds in ur thread u can check the gyazo's (apparently u have a real problem checking them) so u should simply give the money back since I am not satisfied of your " COMPLETE MENTORING " services, which ARE listed in ur title lol.

p.s. : " By the way, if you need any help. ANY help at all - even if it's non-method related... DO NOT hesitate to contact me on Skype. I'm here to be of service. " - this is also IN YOUR EBOOK on the read me first pdf file so stop bullshitting

p.p.s : " Feel free to contact me anytime 24/7 and I will reply (I do sleep so please be considerate). "

Oh yeah, 10 year old actions here <https://gyazo.com/0603e44eaf75e7bc293d23f7aa308fdf> , instead of actually having a pair and discuss this through hahaha, pathetic af

No offense man but if you bought a standard package you aren't entitled to any of those things, including a refund.

D_MuLa - February 25, 2016, 11:22 am

oh what do you know?? another member got scammed over an ebook. This shit doesn't even surprise me anymore it's actually getting annoying I think it's about time the ebook section gets removed seriously, it's literally 20 deal disputes per day because of an ebook

it's because people have no ethics and morals and are probably 15 yr old or suffer from severe brain damage like this guy that scammed me. If we stopped caring only about ourselves and actually realized we wouldn't be anywhere in this world without people that surround us maybe we could change something. But not everyone thinks this way and 90% of this planet are selfish and untrustworthy people. fuck society.

Stop being so salty. Its your fault that you bought the starter package, You cant get a refund and support. So, Why did you create this thread? Just figure how to set up the ebook alone or contact milkbone that you want to buy a package with support. He is helping me right now, He is really legit. Stop bullying.

I bought the "power" package from Milkbone, made 60\$ in 6 months total... Mentoring my ass.

A mentor would ask: "Hey, how are you doing, need help?"

So yeah... HackForums eBook section is cancer.
