I want something along the lines of the following:

Guilty Crown

Zetsuen no Tempest

Code Geass (I hated the character design, don't send me something that has that same type of animation)

Tales of the Abyss

Acell World

Hunter x Hunter

Please don't suggest me Log Horizon, tried to get into it but just couldn't.
VA anime's really intrigue me.

I've watched a lot of the good ones in this genre, I just don't remember all the names, so just post what you think I should watch and I'll tell you if i've watched it or not.

If you could provide the Wiki link that would be great!

Thanks!

I'd give World Trigger a go, it's easily one of my favorites.
