Could I have a vouch copy ? I'll write a HQ review.

Contact me on skype: max.tiwin or in pm

?Arrow-? - February 28, 2016, 4:28 pm

I got a vouch copy to review and here are my thoughts and honest opinions:

This eBook has pretty much every method I have seen already. There is nothing very unique about this other than the ultimate version which has a custom webpage. For the amount of money that this is worth I honestly don't think it is worth it. Most methods seem very saturated.

HackTheScoolserver - March 4, 2016, 11:10 am

Could I have a vouch copy? As I have a lot of experience I'll write a HQ review!

Natani - March 4, 2016, 4:26 pm

Updated and added a new Unique method to basic!

Senpie - March 4, 2016, 4:28 pm

User has sent me a copy of this Ebook. I must say he put a good amount of dedication into writing - formatting - and setting things up with this Ebook. I highly recommend it and give an enormous vouch for it! ?

thedirtybook - March 4, 2016, 4:34 pm

How is this different from other spreading ebooks dawgie?

Natani - March 5, 2016, 10:15 am

Nani spreading is different from other because we provide you with premade resources to spread your virus such as webpages, soon to be added is torrent spreading files so you can easily get slaves via torrent with good niches.

HackTheScoolserver - March 8, 2016, 9:40 am

Seems legit. I'm waiting for the vouch copy, so I can write my review.

In the meantime good luck with sales!!

HackTheScoolserver - March 15, 2016, 7:11 am

I have received a vouch copy for this E-Book and here is my honest review.

Grammar: 10 | 10

Most people don't care about this. But in my opinion this is a good indicator to see how legit the E-Book is and how much effort the autor has put into it.

I have read several times through the Book and have not found any single grammar related issue.

Layout: 9 | 10

This E-Book is well organized and graphically impressive too. Also this shows that the autor has put a lot of effort into it.

Originality: 8 | 10

Natani included some basic methods in his E-Book, but you can still have a lot of success with them. Other methods are quite unique. Really interesting and useful in my opinion is the 'Custom Spreading Webpage' of the Ultimate version. I have never seen this in a E-Book bevore!

!!!This is just the first released version of the E-Book. Natani will update it and add more unique methods. Therefore I will update this review too and I'm pretty shure I can give him more points for the originality then!!!

Overall: 9 | 10

This is a HQ E-Book. It's easy to understand and you will make many installs if you follow the instructions!

Clarity. - March 15, 2016, 7:28 am

Can I have a vouch copy? I will test the method and write a honest review :) Good luck with sales
OP

methods seem very saturated. Well just to let you know Arrow. That basic, Premium and Ultimate now have custom pages. Some methods may be public. But its is way better explained then all the other ebooks and walks you though step by step. And my support is basically One on One mentoring.

toome - March 18, 2016, 5:00 pm

I'm interested of your ebook but can I ask why you want to buy updates from other user if you have so good spreading method?

Natani - March 18, 2016, 6:22 pm

Buying from others will make you get the clients in a second. This method wont get you 400 clients in a second.
