Thread: [How to discriminate a legit vouch from a paid vouch?](#)

roverturboo - February 27, 2016, 5:30 am

anything to look for?

i'm looking to buy an e book but with the kinda unrealistic vouches and users posting pics of their paypal/bank account transactions idk who to trust.

minimalist - February 27, 2016, 5:35 am

There are no real vouches posted on any sales thread that will offer large earnings just by reading a 5-page .pdf.

Mr. Good Guy - February 27, 2016, 5:35 am

Well to give you an answer you would see if the thread has some users complaining that they have not earned money like the seller has promised to earn on a given time like some of their packages have Skype support and etc.. those screenshots are probably just edited through console and you wouldn't see a legitimate money making method being sold off in public(I'm not pertaining to all e-books on HF). So save your dollars on something if you want to invest.

Cammy - February 27, 2016, 5:35 am

Dont buy eBooks the only way to make money is to sell ebooks not buy them

JakeDarkblade - February 27, 2016, 5:37 am

Just don't buy them. Look around hard enough and you'll probably find a leak of it.

CorrosiveBlueberry - February 27, 2016, 6:38 am

Start a business selling ebooks on hackforums and you'll become rich!

Layout - February 27, 2016, 6:44 am

Do not buy any ebooks. Look it up at google and you will sure find a leak.

?Alexander - February 27, 2016, 6:44 am

why would you discriminate a legit vouch? stop the discrimination!!!

1tap - February 27, 2016, 6:45 am

Don't buy ebooks at all.
not worth it

Prophet Banana - February 27, 2016, 7:33 am

Wow I can't believe descrimination is still present in modern society. It's 2016 people!

BeNT- - February 27, 2016, 7:38 am

Pretty much assume there are no legit voucher here period for ebooks etc.
Cheers

?euces - February 27, 2016, 7:40 am

yeah well just do your research on every one and look for the negative comments that way u will find the problems with the book

Zinx - February 27, 2016, 7:40 am

How to make money from ebooks: don't spend your money on ebooks, secondly, check the rep of the people vouched, and also, you used discrimination in the wrong context my friend.

minimalist - February 27, 2016, 7:43 am

Not sure why all of you are bashing OP because he used "discriminate" rather than "discern". It's really not a big deal.

Fiz? - February 27, 2016, 7:47 am

You used discriminate wrong on your thread I believe distinguish was the word you were looking for, but anyway most eBooks are trash if you're doubtful about it then don't buy it.

Prophet Banana - February 27, 2016, 7:52 am

Discern lol. For a minimalist your vocab includes too many unnecessary words.

minimalist - February 27, 2016, 7:55 am

Minimalism is key friend

"simplicity is the ultimate sophistication"

- Da Vinci

Niccolò Machiavelli - February 27, 2016, 8:01 am

If they are wearing an echo userbar you can pretty much discredit any vouch they have given

Heart of Kings - February 27, 2016, 8:06 am

You may be interested i'm selling an ebook on why not to buy ebooks, i'm selling it for a whopping \$0

magol - February 27, 2016, 8:26 am

Bro, I remember, when I bought an ebook from hf. I regret it to this day, nothing new nor profitable, the methods, were the same as 10 years ago. Now they're posting more "realistic" ebooks like "how to make 1000\$ a month" or something that seems real, not the old stuff "make 10k a week" lol. No one is going to sell their money making method, It's like apple selling their secrets to samsung, doesn't make sense neither do these ebooks.

donethatbeenthere - February 27, 2016, 8:28 am

ebooks never work

except ewhoring

roverturboo - February 27, 2016, 9:40 am

(Feb 27, 2016 09:28 AM)donethatbeenthere Wrote: [\[CITE\]](#) ebooks never work

i learned from all these posts not to click on your ad

jujager - February 27, 2016, 9:59 am

Why doesn't omni ban these scam ebooks?

"paid vouches" is like asking for rep. No, it is worse than asking for rep.

You should get banned for making a scam ebook with fake vouches.

I seriously can't believe omni just looks the other way

(Feb 27, 2016 09:28 AM)donethatbeenthere Wrote: [\[CITE\]](#) ebooks never work

except ewhoring

See this hypocrite?

You have a fucking scam ebook in your sig!

Rivalry - February 27, 2016, 10:07 am

Some ebooks have methods that work, but they're always oversold. Trust me; I did graphics for years on here so I was involved in overselling many ebooks. Disregard all vouches displayed in the OP, and comb through the thread yourself looking for actual buyers and their responses. You'll make money by buying an ebook, sure, but it's hit and miss. Sometimes you won't even earn back what you paid for it, and usually the methods are simple/derivative of each other/hard work/immoral/illegal. If I were you, I'd stick to easy stuff like arbitrage and the rather helpful free money-making sections of this site.

Ordium - February 27, 2016, 10:08 am

Simple. Don't buy any ebooks.
