(Nov 22, 2015 03:19 PM)root43 Wrote: [\[CITE\]](#) I highly vouch for Drays service, went first and he came through within 10 minutes with the config i requested. The config is high quality and working properly. huge vouch from me.

(Nov 23, 2015 08:43 AM)achoe Wrote: [\[CITE\]](#) Hi guys;
Today i want to post some reviews about this guy Drays.

First of all; he is really fucking master code of sentry MBA. First time i just need only the config then after some deal and with his help; we already and working on project really perfect. sometimes he was disappear then i was worry he is scam me money. But he was not and proven he is professional. come back to say sorry and did all the rest, we was did done with some average (not much but not less) amount (sorry they didn't allow for me post pic; will update later)

So no reason make you worry once made the deal with this awesome guy.

Once again; thanks too much my partner Drays.

Achoe!

(Nov 23, 2015 09:55 AM)Krave Wrote: [\[CITE\]](#) Just purchased a config from this user. Huge vouch as I've never seen such speed before.

Thanks a lot! Don't hesitate to purchase from him.

(Nov 23, 2015 03:15 PM)markeloff Wrote: [\[CITE\]](#) Just bought a config from Drays, pretty cool guy, delivered the config in less than 20 minutes.

Don't hesitate to order from him.

(Feb 27, 2016 11:02 AM)*309* Wrote: [\[CITE\]](#) Is it still possible to make amazon configs? i heard they die real quick. and u do a packaged deal?

Amazon is rather special indeed, they keep adding security in their various login pages, it's pretty painful to work with ?

The only decent config I managed to make for Amazon that wouldn't require DBC credits is using their API. Eventually, the config skips a lot of accounts due to the way the API responds...

And sure, I can definitely make packaged deals.

Had a config made, very fast works great and is a pro at what he does would recommend

Villezzai - February 28, 2016, 8:45 am

Seriously, how many threads do you make? Lmao

Can not edit once the thread has been created but I do update my prices, configs list & added my proxy grabber-checker to the sales thread.

Honestly, it's not like it's harming anyone, I don't see any kind of problem.

Vindicated - February 29, 2016, 7:27 am

We were talking yesterday about a config. Was waiting to pay you so I can receive it but you disappeared again.

Can you please let me know either here or on Skype if you're going to sell it? If not, I can ask someone else.

Thanks.

Made it upon your request.

The site seems to bug with SentrMBA as the source doesn't wanna show... Nothing you can do about it, some sites just don't seem to work with Sentry.

Though I was able to make the config using the headers only.

But the website has a temporary login lock after a few failed tries, and it doesn't show in the headers, so eventually I have had to set a proxy ban after 7 tested combos, and set the proxy reactivation after 1mn (temp ban timer)

So it works like this :

Every proxies test 7 accs, all proxies are stopped for 1 minute then restart again & over again.

Due to the source not showing up, no capture can be set.
