Thread: [\(FREE RELEASE\) MyBB Custom Theme \(Original price 125\\$+\) - Unique Theme](#)

Pewz8 - February 27, 2016, 12:05 pm

Hey guys. I've had this theme for half a year now, and I haven't been using it the past 4 months because I didn't go further with one of my forum projects so I thought I'd try to do some more contribution to the community and actually share a theme coded from bottom that costed me over 100-125\$ & more.

100% unique theme, no one else has or uses it since it was coded & designed for me.

The purpose was having dark/blue-ish colors to fit the niche better, but it's up to you what you want to use it for really.

For further information post below.

Send me a PM if you wish to download/use this ?

- Anything else you might find useful (upgrade page, or what so ever) can get sent as well - just throw me a PM.

That's actually really nice mate. I'm deciding whether or not to setup a blog OR forum, will give this theme a try if I end up picking the latter

Sounds good, sent you a link - let me know if you need any help with it as I said. ?

VirtualFrost - February 27, 2016, 4:21 pm

Obviously it isn't the best-looking one out there, however it looks really good for a free theme. Nice work!

Wires - February 27, 2016, 6:17 pm

\$125?!?!? You must of been smoking someone's ashes.

I don't claim it being, but it definitely isn't the worse in any kind either, in my opinion it's a pretty well looking theme (especially considering it's available from me at no cost). (Not the best, indeed though)

100\$ for theme, and 25\$ for additional fix-ups/requests. Hope you're doing well btw, Wires!

Pewz8 - February 29, 2016, 11:47 am

Sent out a few copies already

Who designed that theme? Cheers

Misanthropy - March 13, 2016, 2:35 pm

125\$ for a MyBB theme like that? ?

Etharas - March 16, 2016, 6:46 am

If you're still giving away copies of it I'd love one, thanks.
I personally like it.

Dude stop hating, the guy is trying to be nice and share a theme which he got it done for personal use. \$125 or \$25 doesn't make that much difference stop spamming the guys thread.

Haxcore0001 - March 20, 2016, 12:45 am

I would love one of this thanks man

Shoe - March 20, 2016, 6:22 am

@Shoe, I've sent it now :)

Pewz8 - June 2, 2016, 12:01 pm

Still offering for anyone that could be interested.

AK81 - June 2, 2016, 12:04 pm

That is a very nice theme actually mate, I have no use for it but thats very generous of you. Thanks!

Nasyr - June 4, 2016, 6:19 am

If I'm being honest I do not think that theme was anywhere near worth \$75 never mind \$125+ it's pretty basic and I'm sure I've seen a very similar theme somewhere else before. I think someone just edited that theme and then sold it to you buddy.

It was made by Mr Blade, <https://hackforums.net/showthread.php?tid=4121499>

I don't know though, when I needed it, I liked it quite much, but it's not like it's a -never seen before theme - indeed.

ARI SORANI - June 5, 2016, 4:49 pm

Well done frend not bat nice

Nerdi - June 5, 2016, 7:35 pm

\$125 is fine for a custom theme like this. He could have tried to sell this off for \$5-10 per copy, and gotten a few sales. He'd pay back the \$125 and turn a profit over time by selling this theme. He's giving it away for free though. Thanks OP

I remember this theme actually, it has been used in several forums. I think both being the same domain/niche but different owners. It was SeriesForum.net, I believe.

What's the logic in that? ? It's just a theme, if it works it works.

In terms of web design any theme that uses tables as its main layout system is stuck in the 1990s so anyone who pays \$125 for someone todo that is silly.

I know HF still uses tables but its not like they have a nice looking theme either is it? lol

Obviously this was released two years ago, but it's okay for a free theme. Now, here are my questions for you: is the theme responsive, does it come with a style sheet, is it compatible with 1.6 and 1.8, did you fix the login errors within the templates or will admins have to do this themselves, and also what what are the features?

These have probably already been answered at some point since this is an older thread, but I figured I would bring them back up.
