Thread: [Punny \(3039005\) admitted to scamming and Oxeye \(2776895\) possibly involved too?](#)

Screenshots speak for themselves really.

Punny - <https://hackforums.net/member.php?action=profile&uid=3039005>

Oxeye - <https://hackforums.net/member.php?action=profile&uid=2776895>

Punny scammed Rattle for a \$15 Kik.

Spoiler ([Click to View](#))

Monstrous wanted to sell his Kik to Punny for \$65 and use me as a MM (insert shameless advertising of my MM service here), but Punny wanted to use his own MM.

Spoiler ([Click to View](#))

Punny then tells Rattle to PM Monstrous telling him that Oxeye is a legit MM. This is where I'm not sure if Oxeye was actually involved, or if Punny just made a Skype using his name and was planning to scam by pretending to be Oxeye as a MM then just blaming it on Oxeye.

Rattle PM'd Monstrous saying Oxeye has nothing to do with the scam, that's why I'm a bit confused here.

And if that wasn't enough to convince you, here's Punny outright admitting the scam (and multiaccounting) to me.

PLEASE DON'T DEAL WITHOUT A TRUSTED MIDDLEMAN THAT'S EXCHANGED ON HERE BEFORE.

"There are children in sweatshops that are earning more than you" rip punny 2016

On a serious note, sucks that Rattle lost out on \$15, I am guessing mr punny is not going to resolve this. Sorry Rattle
