Thread: [\[SHOP\] Xbox Gift Cards at 70%](#)

???? - February 27, 2016, 4:16 pm

Hello HackForums. I think it's a win-win if I come to help the community out with Xbox Gift cards, isn't it?

This is my thread that might get a fancy design sometime, or it might stay like this.

Shop status: CLOSED

Payment method: BTC / PayPal (PP has to be F&F and I will do PayPal only with very trusted people)

So, how things are going to work? You PM me a "request" that should contain the gift card you want (\$10, \$25, and so on). I will reply to you if I have the amount you need and start dealing. Please make sure that you check the shop status above.

I am only dealing on-site, not going first unless you are very trusted. We might use MM for bigger deals. Anything under \$100 isn't big.

Gift cards are not obtained through carding at all.

Thank you very much for showing interest into my shop.

Can you get cards for different regions? Example, Brazilian, Canadian ect ect? And what are the risks of using these cards? Like are they purchased legitimately?

The cards are purchased legitimately and you can use them in any region as far as I know.

I'm looking to purchase some games from the Colombian store so don't want to purchase some codes and find out they're specific for a certain region. Can you find out and pm me?

OGUgameuniverse - February 27, 2016, 6:18 pm

Justin I will buy the method depending on what the price is. Please pm me.
