Thread: [Hardcore Networking - Local Business Op](#)

Morty - February 28, 2016, 3:24 pm

So this weekend i've spent the entire time networking with some new friends and their mutuals and i've found:

- 1 CPA monetizing expert
- 2 professional photographers with 30k in gear
- 1 professional graphics designer (logos, marketing etc)
- 5 strippers

long story short i have everything i need to make a local business (photography) and use free knowledge to grow website/insta/tumblr and make easily a few hundred bucks a week autopilot. (with literally \$0 investment)

everything's just fallen into place, even the girls i've hit up to shoot have been super keen.

Currently getting a consent form/contract written up for girls who are getting photographed.

Pretty keen for this since i can use it as a legitimate business to offset so much tax from my actual job.

also, free titties ?
