Satoshimines have always had "excuses" for large cashouts
I hope he gets his money, but my doubts are high.

Can confirm, did he manage to cashout all 98 btc?

Bustabit have a winning cashout limit, does satoshimine have a winning cashout limit too?

Flyrect - March 2, 2016, 11:09 am

Yes, I cashed out all of it and a little bit upto 114 coins in total

They ran out of funds in Hot Wallet, yet i waited up 2 days lost 13 coins when i played few games but safely cashed 104 coins :)

Maester Seymour - March 5, 2016, 1:44 pm
You must wait for all deposits to appear in at least 3 blocks in the blockchain, each. Estimated wait time: About 15-25 minutes.

Just started and doubled my money, what does this mean i have to wait 25mins to withdraw?

Queen Cin - March 5, 2016, 1:46 pm
Someone should find out if that guy got his money

Mustbebobby33 - March 5, 2016, 5:56 pm

Yea, just be patient and they will let you withdraw,
