Thanks for sending the ebook. I've just read it, and for me its quite helpful about the SEO optimization of the video.

I dont have the GSA Software's as they are quite out of budget (and not willing to spend), for now.

But you point out some other tips to get backlinks. Useful.

Honestly. I normally ranked my video manually till page 1 (number 5-8) and rank it with GSA up to Rank 1-3.

I believe that I see more of these threads where you have to post to get a PM for something, but please correct me if I'm wrong ?

Hi again, If you see these kind of threads, just report them. Its against HF policy.

You can't ask members to post, if they want to post.. they will. Posting is optional, asking for them

to post at your thread is disallowed. Have a nice day.

In-depth Details below:

7. No "Post Here and PM me" threads will be allowed. This includes "Post Here and I'll PM You" or any "Post to PM" threads.

What you can't do:

1. Offer, require, or suggest a user post in order to get a PM.
2. Say "post and I'll PM you".
3. Say "Post to get a PM".
4. Say "if you post I will send you a PM".
5. Say "please post and you will get a PM".
6. Say "Post required to get PM".
7. Say "Post to get download link".
8. Say "To get download link please post".
9. Say "Post to get the ebook".
10. Say "Post here then I PM you".
11. Tell users in PM..."post in thread and I'll send you link".
12. Say "Reply and I'll PM you".
13. Say "If you reply I will send you a PM".
14. Say "Only those who reply will get a PM".
15. Say "Post and PM me"

What you can do:

1. Say "PM me for info".
2. Say "PM me for more info".
3. Say "Send me a PM for download link".

Post to PM

Users are not allowed to ask members to post on their threads, including PMs, in order to receive whatever they are offering (that is distributed via PM). This includes saying "or" instead of "and". Members may simply post the direct link on the thread instead (if applicable) or ask others to PM them. More information regarding the rule can be found [here](#).

Thanks a lot! I really appreciate your feedback ?

I spend MANY weeks on doing research/testing/spending and 1 thing went great of all that.. my Youtube rankings! I ranked many videos with this method + the right tags & title through competition checker (Market Samurai).

I ranked with GSA ser + cb + indexer as well, but I don't want to write a tutorial for that since there are already many online ?

Good luck fam!

I can't guarantee that it'll be working, that's why I'm giving it away for free.

Also it's 100% about optimizing your video when posted to YouTube, so don't expect it to be ranked in 3 days like you could with GSA or any other backlink creating program.

thank you so much for this wonderful ebook honestly.. I would just need another simple favor from you sir I hope you would get agree with this as you really look to help people.. Its not just gonna help me but the other as well literally. Well back to the favor :P.

As you have mentioned that you also use automated back linking procedure to rank you videos. I am very keen to learn about how? I actually was about to get myself those tools for some other reason to rank my website of course and buying dome private proxies as well for that. But still noob for that. Please share this small technique to help us out particularly me. I am very keen to know about it and get my hands dirty with that trick. Ill hopefully gonna get those tools up soon. But please before that do let me know for how to use and do it.. A video would highly help or a document as detailed as this :). but takes a lot effort and time. A video would also be clear, qucik and appreciated sir. Because honestly, i really am looking forward to this. BTW thank you so much for this great ebook and looking forward to this small favors of your :D. Thank you so much really appreciate you effort.

looking forward to your reply .

Thank you for the compliment!

Sorry about the keywords though haha I used those keyword suggestions as example.

I used to own Market Samurai (for competition checking, keyword issues/research and more < Great tool)!

Gaining views:

- buy HR views
- buy GEO targetted views
- Place ad on Facebook
- Link about 3-4 videos in your description (to get the "flow" going)
- Use captions (like in video links to refer to another video)

Etc.. I'm not active with YouTube anymore, so I can't really give you any more advice then this. Good luck and go get that money ?

Good luck and go get that money ?Are you still involved with CPA? What route do you use now?

(Jul 10, 2016 10:06 AM)-Exiled- Wrote: [\[CITE\]](#) Are you still involved with CPA? What route do you use now?

I'm not actually.

My best CPA moments where created with:

- Facebook ads + FR niche (who's also ranked in Google < STILL in top 5, page 1)
- Youtube video(s) + landing page (site with locker) after buying HR views/ranked
- Social locker created a "viral" loop of visitors, which was a nice day

Further I'm not really into CPA anymore.

I tested a lot, made single niche pages and multi-niche sites.

I created a lot of ads (facebook mainly) and used YouTube + social media + a bit money to get my videos going really well.

I ranked my videos with GSA (gsa ser + captcha breaker + indexer) when I had some investment money left, to get more videos in the top 5 YouTube.

Best niches (which I earned from):

Angry Birds Go (race game)

Assassin's Creed Black Flag (pc game)

GTA 5 (france site, still active in top 5 Google, yet not many clicks per day)

Minecraft (especially the France page that I created, I had 1 EN and 1 FR)

Windows 8 (activator, which went really well)

More than this I can't really help you, because the information is a bit out-dated.

I do know how to create websites, how to get traffic and to create Facebook ads which are really cheap (pay per click).

I just can't help you any more with other CPA related things, because I'm out of the game for a while now ?

(Jul 10, 2016 10:14 AM)TheVBScripter Wrote: [\[CITE\]](#) I'm not actually.

My best CPA moments where created with:

- Facebook ads + FR niche (who's also ranked in Google < STILL in top 5, page 1)
- Youtube video(s) + landing page (site with locker) after buying HR views/ranked
- Social locker created a "viral" loop of visitors, which was a nice day

Further I'm not really into CPA anymore.

I tested a lot, made single niche pages and multi-niche sites.

I created a lot of ads (facebook mainly) and used YouTube + social media + a bit money to get my videos going really well.

I ranked my videos with GSA (gsa ser + captcha breaker + indexer) when I had some investment money left, to get more videos in the top 5 YouTube.

Best niches (which I earned from):

Angry Birds Go (race game)

Assassin's Creed Black Flag (pc game)

GTA 5 (france site, still active in top 5 Google, yet not many clicks per day)

Minecraft (especially the France page that I created, I had 1 EN and 1 FR)

Windows 8 (activator, which went really well)

More than this I can't really help you, because the information is a bit out-dated.

It's always interesting to hear other methods / ideas. How much did you end up making total?

I stopped with CPA after he mass ban of January 2nd 2014.

I lost my:

- Youtube accounts
- Blogger accounts (including the blogs of course)
- Google accounts (which where my Youtube accounts)
- Traffic
- etc..

I don't like to talk about my earnings or anything other related to that.

This thread is for my Youtube eBook only and not to discuss CPA, but feel free to PM me if you got any questions (not related to my earnings, of course).

Going to shower now and enjoy my sunday further (lame as fuck haha) so enjoy your day and PM me if you need to know anything else ??

Good luck with that, this is only a small part about CPA (Youtube ranking with GSA, organically, with social media, etc).

It's a small drip in a big ocean haha but once you learn how to swim, you'll have a nice pool to swim in haha ?

No offense to you, but I request/ask you, not to respond to my thread anymore.

I don't trust you at all (due to the 8 matching IP's.. could be a leaker/scammer), so please don't ask for my eBook again. ?

I can decide who I'm giving my self-written eBook to, and I do not want to share it with a new member who got 8 matching IP's because of a VPN.

About "to earn some money :(" I think that you are just seeking more money making methods (even pay for ones) so you can scam/leak...

Also you DON'T need my eBook to make money... If you can't earn with CPA/YouTube without my eBook, you won't be able to make money WITH my eBook.

Sorry, but 1 more time. Please don't respond to my thread anymore and good luck further with your earnings. ?

Set everything up for 9 videos of the same niche, each with about 5k views already and uploaded 1 year ago. Let's see if that works! Still gonna do a specific video + niche tomorrow and probably report back the results in 1 week or so.

Okay, good luck fam.

Try to analyse/check the competition of your niches before using them.

Example: (fake stats to show example)

- clash of clans free gem generator (50k results)
 - clash of clans online gem generator (200k results)
 - clash of clans online free gem generator 2016 (80k)
- Etc.

Choose 1 of the niches that got:

- less compitition than other niches
- keyword search/month average or higher than the rest
- all in title check to see if you can make a domein that suits perfectly

Anyway I hope u get it, it saved me a lot of stress to check the competition first and ranking my videos was really easy. Good luck & let us know what happens ?

It could be a lot of things:

- LQ views (you should buy HR views or GEO targeted views)
- Too much competition
- bad optimized video (like links, description, etc)
- too fast "ranking" (don't buy videos the moment you created the video + likes + comments.. it's more fake than real for YouTube "bots").
- etc...

I'm not here to help guys out with YouTube issues, sorry fam.

This is only for my Ebook. I thought about a help-desk, but I can't do that ?

This eBook is to help your Youtube videos to increase rank.

It's not to get more views, likes or subscribers "out of the blue".

It won't rank your video from page 7 to page 1, rank 1, by only a day.

It needs a lot more. This eBook is a walkthrough how to optimize your video, which means that it won't suddenly get more views.

Anyway, this been said. I sent you the PM which includes the eBook as well.

Just don't expect too much from it, if you can't get any views without it. ?

Thank you man. I appreciate it.
I got a lot of experience with CPA, because I learned my "skills" from scratch.

My first "CPA" was free Axe deodorant in exchange for an email.
It didn't worked out as well and I started to do "h4cks".

That worked out well and CPA network staff told me how to convert blackhat into whitehat niches so I'd be "earning legit money according to the rules".

So the "top notch" guys taught me, I google'd A LOT (matthew woodward or something is a GREAT tutor for SEO) and I based my "experiments" on his words.

It worked out well (before I started to use SEO tools) and I thought let's share it with you guys as well :)

Thanks for the feedback, I really appreciate it!

No, sorry. I won't share my eBook with you.

For the following reasons:

1. You posted "im a new member" (and about your rep so you cant PM yet) a few times in other threads as well, which proofs to me that you aren't a new member
2. Your trust scan says you got 1 Matching IP at this time, I don't trust that

So far (what I heard from my eBook receivers & other information about CPA) this is still working..

Disclaimer:

This is NOT an "instant rank" eBook.

This is NOT an eBook which tells you how to "outrank your competition".

This is NOT an eBook which shows you how to rank "your video to number 1".

This is ONLY an eBook which shows you, step by step, how to optimize your video (when uploading, like description, tags & title) to INCREASE your YouTube Video Rank.

Sorry I prefer not too.

No offense to you, but it's getting more and more "popular" now, so I prefer to send it only to members who are longer active than you are.

Else it might get "saturated" (used too many times in order to work properly).

I hope you get it. ?

You should do it. I appreciate your feed back ?

Some extra info (tips) for you all:

- more social media links in description
- add relevant tags to your description content
- use other (side) accounts to boost your video with likes / comments to make a start
- use a keyword density of 3% (recommended by some SEO specialist I talked too, feel free to PM me if this isn't true)

Good luck and thanks for the feed back!

1. "Send me a PM for download link!" (you didn't read the thread)
2. I'm not going to send it to a member who flamed me in the past as well as reputated me thanks to his "script"
3. Work on your attitude before even replying to my thread... I told you that I strongly dislike you as a user so yes.

Thanks for understanding.
