I am a fan of anime OST so I was wondering what some of your favorite anime soundtracks are. Extra credit if it is not a OP or ED ?.

Anyways here's mine which is from the anime Tasogare Otome x Amnesia:

Probably the Kill La Kill one

GroveStreetOG - March 1, 2016, 8:15 pm

"L's Theme B" From Death Note

"Stories" From Code Geass: Lelouch of the Rebellion

" Tsuisou" From FullMetal Alchemist

Same here OP , i love that one... used to make me Sob every time ?

Duyere - March 1, 2016, 11:45 pm

Oh boy this is going to be a hard one. Choosing between my favorite OP/ED is hard enough. I need to start paying attention to soundtracks again. Usually so infatuated by the story that I overlook the music playing.

All three of those anime and tracks are good mentions. These would have definitely been on my list somewhere.
