Thread: [Net Protect - Keep Your Code Safe](#)

Only3 - March 1, 2016, 10:25 pm

?

if u dont want any one to see or leak ur code and hard work then now u can do it
u can keep ur code safe and protected also with small size and double protect

let me know ?

Nick (Name) - March 2, 2016, 5:25 am

Is this supposed to be some kind of obfuscation service or what? You never seem to post but very little info.

Cecilia - March 2, 2016, 5:33 am

inb4nativewrapper

More info, screenshots, etc, cmon Only3.

? yhe combination of native and other programing knowledge
its not application and will not be im doing it per request [file]

Good luck with it, hopefully you have strong anti-debug/anti-dump...

Challenging people on this side is probably not the smartest kind of reply you could have done. Especially LaPanhere. ?

cawkre - March 2, 2016, 2:02 pm

okay provide a crackme of your obfuscation so people know what sort of protection they will be getting

Cecilia - March 2, 2016, 3:08 pm

(Mar 2, 2016 03:02 PM)danny1313 Wrote: [\[CITE\]](#) okay provide a crackme of your obfuscation so people know what sort of protection they will be getting
I'll laugh when you can megadump it in 2 seconds flat or hook and fuck it.

Only3 - March 2, 2016, 9:42 pm

u didnt get it its not security software its obfuscate and protecting ur code from been leak

Cecilia - March 2, 2016, 11:13 pm

(Mar 2, 2016 10:42 PM)Only3 Wrote: [\[CITE\]](#) u didnt get it its not security software its obfuscate and protecting ur code from been leak
... yet you dump then get the code...
lol.

Only3 - March 2, 2016, 11:17 pm

lol.
? u mean trying to dump and getting the code ?

cawkre - March 3, 2016, 12:18 am

(Mar 3, 2016 12:17 AM)Only3 Wrote: [\[CITE\]](#) ? u mean trying to dump and getting the code ?
that is exactly what he means and like i said make a quick crack me and protect the app how you would normally do it and we will see if its as good as make it out to be

Only3 - March 3, 2016, 1:39 am

get ready to backup ur vm b4 any try to dump it start with anti antis of
<http://www.codeproject.com/Articles/30815/An-Anti-Reverse-Engineering-Guide>

Cecilia - March 3, 2016, 2:36 am

That feeling when you realise you are destroying real PC's by mistake when you fuck up with your anti's and fuck a certain version of windows up.

Hopefully you didn't pile on anti's and assumed it worked on all window's versions and bitmodes...

Only3 - March 3, 2016, 3:00 am

? lapa u should know me abit but u will never understand the way i think (ur replys) ?

Cecilia - March 3, 2016, 5:07 am

Your english is too terrible for anyone to properly understand you... Its kinda sad.
Post a deobfuscate me or just a crackme or something to work with... -.-

Only3 - March 3, 2016, 5:42 am

known issue but i definitely know about programing especially how Net work
i dont want ppl start to play with it even i know it will be hard
"ANY THING CAN BE CRACKED WITH TIME AND MOTIVATION"
theres many tricks and private codes i use and its better if u dont know who and how its protect
when i finish it i would like u to test it ?

MagicMushroom - March 3, 2016, 5:55 am

"when i finish it"
so you selling a program what isnt done yet ?

Only3 - March 3, 2016, 7:11 am

u never finish it updates ...

MagicMushroom - March 3, 2016, 7:58 am

(Mar 3, 2016 08:11 AM)Only3 Wrote: [\[CITE\]](#) u never finish it updates ...
lol
your post above says that you will post a crackme when finished it.
and here u say a program(or whatever) will never finish due of updates

so we will never get a crackme ?
just post a crackme.

Wardow - March 3, 2016, 8:12 am

pls post this damn crackme boi

Only3 - March 3, 2016, 8:35 am

just post a crackme.
u start it "when i finish it" == when i decide that im sure u will give up b4 u start
i didnt take care about others os so its not ready yet for crackme

MagicMushroom - March 3, 2016, 8:36 am

if you thing your product isnt ready yet.
why did you released it ? ?

Only3 - March 3, 2016, 8:42 am

(Mar 3, 2016 09:36 AM)MagicMushroom Wrote: [\[CITE\]](#) if you thing your product isnt ready yet.
why did you released it ? ?
??? i think my reply is clear dont know why u have hard time to understand what im saying
i work with win os and code for win os

cawkre - March 3, 2016, 9:25 am

i cant understand what you mean and i think a few others cant aswell
if you havent finished your protection coding then why are you offering obfuscation services?
and if you have finished your coding for it why dont you release a crack me

as no one will purchase this if they dont know what they are even getting

MagicMushroom - *March 3, 2016, 9:39 am*
