Damn man, you dont use a bot or anything?

???? - March 2, 2016, 12:55 am

Just watch a long youtube video about something. Or simply stand up right now and go eat in the kitchen! Go for a little walk! It's not that hard, just go AFK as soon as you feel like stoping.

Nah, I did this all by hand. I deposited the \$5 at 12:43 and stopped betting at 12:47.

I know it isn't that hard, but I used to have a gambling addiction and be in the casino almost every night. I've gotten over that, but the idea of \$200 within minutes is crazy and how easy it is, is crazy. I guess I'll just bust out the PS4 lol. Don't got work in the AM so I'm chillin tonight.

StoneIsland - March 2, 2016, 5:31 am

ddosfun - March 6, 2016, 4:48 pm

Great job however try this again by starting tomorrow with 5\$, no additional deposits because you obviously broke the satoshi code.

You will probably end up somewhere at \$20 and lose all.

You are then officially addicted to gambling.

boukman - March 20, 2016, 8:04 am
