Thread: [Shutterstock Premium Accounts \[BRAND NEW METHOD\]](#)

Sucker for pain - March 2, 2016, 11:16 pm

Selling a brand new Method to get shutterstock premium accounts.

After the last method was patched me and a few of my team mates have gone trying to find a way into shutterstock and this time, we've gotten even something bigger to get as many premium accounts that u like.

This method i dont even think 100 people in the world would know yet, cant say.

Only selling 3 copies of this, it isnt illegal to do at all.

Offer me, low balls will be negged.

1 year account: 400\$ BTC

I just "purchased" the vouch copy of this method... lol! steal price if you ask me. People sell same method for 200\$ and over, its really easy to do, OP walked me through all the steps and offered to refund me if patched in under a month, so i guess it's safe to say method wont get patched for a while, if you're a sucker for great looking pictures, you'd really get a kick out of this. 9/10 to this method. GLWS OP

Is this about creating account or getting currently active premium accounts?

i have vouches from my old method too, so i can guarantee it working.

(Jun 6, 2016 02:48 AM)delhiar Wrote: [\[CITE\]](#) lool! the thing is that you sold your last method for almost 150\$.

you called it also "un-patchable" "saturation-proof" "private" and all that kind of good stuff.

we all know for how long that method worked!

so buying this methods is a lot more risky than old one, knowing that how easily last direct debit method was fixed!

anyway GLWS!Lool, u sold the same method.
I never said un Patchable, I gave a 1month guarantee of refunds and what not.

This is in fact unPatchable and I can even give a 6 month or 1 year guarantee.
This isn't a method that can be "fixed" cause it's completely legal lol
