Thread: [Dropbox Premium Accounts / Account Method \[4\\$/30\\$\]\[AUTOBUY\]](#)

Sucker for pain - March 3, 2016, 8:50 pm

This method keeps your account premium for a year or as long as u want, then u can just renew it. It does not involve cracking or carding.

It can be done to your personal Dropbox or anyone u want.

Each account will be sold for 5\$ BTC/yearly subscription

I guarantee the method will work atleast for 1 month from purchase, if not, you'll get a 70% refund.

emvee - March 3, 2016, 10:32 pm

hey there GLWS and i want to ask if the method includes carding or stuffs like that?

What's the point purchasing a method that can be patched anytime and it's risky as you say.

Also the price of the method is the same as a 1 year premium member ship at Dropbox.

No offense, but i'm just curious.

Sincerely yours, Excuse.

The point is that, it's not a method that would get patched anytime soon, it's been around for a few years flawlessly, it's not really risky but there is a minimal risk, I've been using this method for more than a year without any problems.

Also u can make unlimited accounts upgraded, so u can sell premium accounts too, not just make 1 account premium, hence I recommend buying it, otherwise you'd just get 1 account premium, here as many as u like.

You don't know the method, don't comment when u don't.

Huge Vouch for OP. I purchased the method and it went smooth and quick. OP walked me through the method on Teamviewer and i got 2 of my accounts premium in almost no time. Don't think this would be patched up and its really a steal for the price being sold at. You should buy it before all the copies are sold in my opinion, as you can sell the premium accounts IRL, and probably get a lot more money than you will on HF or online forums.

Proof: Spoiler ([Click to View](#))

I bought the last copy of it and I must say 'The Brotherhood' is very nice and friendly. The transaction was smooth af.

The method itself is kept simple and very well explained. No 100-page-ebook bs. And it worked right away. It's very simple and easy - no hassle involved.

Thanks for this!

Step 2: Choose existing accounts on the right hand side

Step 3: sign in

Step 4: Change country to Netherlands

Step 5: Choose Direct Debit from payment options

IBan: NL59RABO0154679461

Step 7: press buy now"

This is the exact same method I bought from the seller over Skype.

It's not old or anything lol.

In any case, feel like I've been scammed. Received an email today from dropbox saying they couldn't take payment and reverted the account back to basic. Also looks like they've disabled the Direct Debit option on the account.

Potential buyers, just something to keep in mind. Anyone has any questions, just PM me.

Cheers.
