Hello, I am currently in the process of creating a forum and I am not the best with gfx at all.. So I would love your Help, I need to get a userbar for the following

1. Guest
2. Member
3. Moderator
4. Admin

Possible ones

- Stoner
- Vice

I would take upon all the ideas! I would love it! In return i'm sure I can whip something up.

Hey its been 2 days but are you still in need of these?

I had made some for my forum but never used them as I made some new ones.
if you still need them just pm me :P

That's hype! My only advice would be to add a little 'stem' to make it nicely look like a bong.

Keep up good shit.
