Vouch Copies Available: 1/3!

What is "Ninja Spreading"?

It is a simple, well-written guide on how to spread your stub effectively and easy throughout various methods. It explains it on a beginner level so anyone within any range of experience can understand these methods with easy.

What makes this Ebook so special from others?

Well I for one I used proper grammar throughout the whole ebook and had three people proof-read it to make sure no grammatical errors were made. Second, I used read-with-ease formatting and didn't bunch anything up so you can't understand what is written. Third, I not only provided one method but I provided 9 METHODS for you to try and gain victims successfully!

Features:

- [?] - Explains at a beginner level
- [?] - Includes not only one, but eight different methods
- [?] - Proper and easy-to-read grammar
- [?] - Lifetime Support

Terms of Service:I am not responsible for any damage or actions that are caused by the methods used within this Ebook.

You are not to leak this ebook or share it in any way.

Charging back is unacceptable and will lead to a scam report.

Basically all the methods to spread are public/odd.

It does give tips on how to safely spread, what to do to make a convincing stub but the niches when placing your stub used as an example are very bad.

For example it links places to put your stub and why you should try and infect people from those sites/communities but doesn't exactly elaborate on how to specifically infect people from that site/community.

I'd recommend this to people who are entry-level or looking for small amounts of slaves, I don't recommend this if you've already got a lot of slaves because you're probably using 2 - 3 methods that are in this guide.

6/10, good luck with sales.

OP if you want tips on how to make this ebook better, send me a message and I'll help you for free.

EDIT: He improved the ebook with all the mistakes, I'd rate it 7.5/10 right now.

If you have anymore vouch copies I'll take one!

dnicod - March 5, 2016, 12:41 pm

Can i have vouch copy ?

i will write a good review

Senpie - March 5, 2016, 3:18 pm

Only 1 vouch copy is left! I have also updated the Ebook to include more information and another method!

Cheese - March 5, 2016, 3:32 pm

I received a vouch copy

Here is my review

Originality

7/10 Some of the methods included in this eBook are known, but this eBook gives you examples of them which I never would of thought of. There are also a few methods which I've never seen before.

Content

7/10 Gives you a decent amount of content for the price, explanations could be a little bit better.

Grammar

9/10

Don't see any grammar mistakes, very well written.

Overall

7/10 Great content for the price, as I already said some methods are known, but there are some that I've never heard of before.

Using all these methods will guarantee you to get slaves. If I decide to spread with these, I'll edit with my results.

Senpie - March 5, 2016, 3:48 pm

Thanks for the review/vouch, Consult!

If anyone would like the last vouch copy please let me know.
