Incentives such as awards, upgraded membership is all earnable and if it's sold by us it will be at a reasonable price. When the community grows and it comes time to sell groups, awards, and membership there will be no transfer fee's, instant activation for all, dirt cheap prices (I decided to host this forum so I will take care of the bills), and on top of that Nominations and voting of the community will take place, No staff positions available until community grows more and the members of the community vote upon who has been most helpful and deserves staff. Rules will come as suggested and if suggested please put a yes and no poll.

I am aiming to make everyone happy being on our discussion board, members will always obtain credit for what they have brought to the community. I am trying to build a mature, mellow, feel free to discuss, educational, and built by members community.

Thank you for reading and hope to see you around, If you have not signed up feel free to do so if you would like, It's 100% free to register, If you have an account then I really hope to see you in the future because it's members who build amazing communities.

GG: Not supposed to, It's suppose to be simple, and with easy navigation so you can scroll through with ease plus there will never be ad's.

Designed it like that ;)

Loads of forums are simple with titles, most forums are easy to navigate and some scroll, loads never have adds
