Thread: [meme_gang - recruitment - do you have what it takes to become a meme master?](#)

TheSuspect - March 5, 2016, 8:30 pm

memegang

So you think you have what it takes to become a meme master?

meme_gang specializes in only the memiest of memes, you must be able to find, create and showcase the best memes possible. If you think you have what it takes apply using the format below

what is your name:

how old are you (gotta be over 9):

show us your best meme (that you have created):

show us the best meme you have found:

will you participate in meme_gang meme events?:

NEW QUESTION! do u drink coffee and take picture of it?:

Warning: our review process is STRICT, u may find it hard to get in.

All you need is:

- 1) An email address
- 2) A PayPal account
- 3) \$6.00

WHAT IS IT?????

The idea is that of a system that takes advantage of the power of compounding. And in a big way, let me tell you. First and foremost understand that there are countless spin-offs of this system that try to make a "quick buck" off of people. Long lists, the 5 & 10 dollar trees, the birthday systems, etc... Those spin-offs do make money because of the ease of implementation of this idea, but they do NOT use the compounding advantage. This system is THE LEGIT and PROFITABLE one.

Here is how it works...

There is a list of 6 email addresses (you'll see it as you read further). Each of these people has already taken part in this system. When someone new comes along (such as yourself) he/she removes #1 off of the list, moves the other five email addresses up one position (i.e. #6 goes to #5, #5 to #4, etc.), and places their PayPal email address in the #6 position. This process is what develops the power of compounding. The bottom line is this

HONESTY and INTEGRITY CREATES PROFITABILITY.

Following this EXACT process is what creates the money, and that is why this system has been raved about in the media. Altering the system creates weak results. The legality of this system comes from the idea that you are of course creating a mailing list, and a "service" is being provided (more on that later.) Now on to how your \$6.00 creates BIG money...

INSTRUCTIONS:

STEP 1:

The first thing to do is highlight and SAVE this entire post in word or notepad on your computer so you can come back to it later.

After that, if you are not already a PayPal user you need to go to the PayPal website at [paypal.com](https://www.paypal.com) and SIGN UP.

If you want to be able to receive credit card payments from other people then

you will need to sign up for a PREMIER or BUSINESS account (not just a

PERSONAL account).

This is highly recommended to allow others easy payment options. In order to place the initial \$6 into your account, you will have to verify your bank account with PAYPAL (which may take a few days). PAYPAL is 100% secure and is used by millions of people worldwide.

STEP 2:

Here is where the action occurs. The first thing to do is to send a \$1.00 payment to each of the 6 email addresses on the current list from your PayPal account. To do this quickly and successfully, follow these simple steps:

1. Login to PayPal and click on the "Send Money" tab near the top of the screen

2. In the "Recipient's Email" field enter the email address

3. In the "Amount" field enter "1" (This is your \$1.00 payment in USD
US Dollars)

4. In the "Category" field select "Service" (Keeping it legal)

5. In the "Subject" field type "EMAIL LIST"

6. In the "MESSAGE" field enter "PLEASE PUT ME ON YOUR EMAIL LIST".

By
doing this, you are creating a service and maintaining the legality
of
the system by "paying" for the service.

7. Finally, click on the "Continue" button to complete the payment.

8. Repeat these steps for each of the 6 email addresses. That's it!
By

sending the \$1.00 payment to each address, you are implementing the compounding POWER of the system. You will reap what you sow!
Here is the current e-mail list: *****

1. josemanuelgood @ hotmail.es
2. brazodehierro @ hotmail.es
3. albertoeuro1 @ gmail.com
4. enriquerodriguez013 @ gmail.com
5. jbfinance6@ gmail.com
6. s_justinekate@ yahoo.com

STEP 3:

Now take the #1 email off of the list that you see above (from your saved file), move the other addresses up (6 becomes 5, 5 becomes 4, etc.) and add YOUR email address (the one used for your PayPal account) as number 6 on the list. This is the only part of the document that should be changed. Make sure your email address is the one you have registered with PayPal

STEP 4:

Post your amended article created in Step3 to at least 200 newsgroups or message boards. Keep in mind that there are tens of thousands of groups online!
All you need is 200, but remember the more you post the more money you make -
as well as everyone else on the list! I've began to see money roll in before I even hit 100 posts, but try to hit around 200 to allow maximum exposure. Use Netscape, Internet Explorer, Firefox, Safari, or whatever your internet browser is to search for various news groups,
on-line forums, message boards, bulletin boards, chat sites, discussions, discussion groups, on-line communities, etc.
For example, log on to any search engine like yahoo.com or google.com and type
in a subject like;
'MILLIONAIRE MESSAGE BOARD', 'MONEY MAKING DISCUSSIONS', 'MONEY MAKING FORUMS', or 'BUSINESS MESSAGE BOARD', etc. You will find thousands and thousands of message boards. Click them one by one and

you will find the option to post a new message. Fill in the subject which will be the header that everyone sees as they scroll through the list of postings in a particular group, and post the article with the NEW list of email addresses included. THAT'S IT!!! All you have to do is jump to different newsgroups and post away. After you get the hang of it, it will take about 30 seconds for each newsgroup.

HOW THE MONEY WORKS:

When you post 200 messages in various forums, it is estimated that at LEAST 15 people will respond and send you a \$1.00 (\$15.00). Those 15 will Post 200 Posts each and 225 people send you \$1.00 (\$225.00), etc. through 6 levels of email addresses. For comprehension purposes, here is an easy viewing chart:

- 1) 15(1) = 15 people (\$1) = \$15
- 2) 15(15) = 225 people (\$1) = \$225
- 3) 15(225) = 3375 people (\$1) = \$3375
- 4) 15(3375) = 50625 people (\$1) = \$50625
- 5) 15(50625) = 759375 people (\$1) = \$759375

As you can see, your \$6.00 has multiplied exponentially. What other opportunity that is as simple as this can cash in the way this can?! I'm not going to say this is going to make everyone over \$800,000, but within a few WEEKS you begin to see results, thanks to the speed of the internet!

When your name is no longer on the list, take the latest posting in the newsgroups and begin the process again. Simply amazing...

One other tip to speed up the process even more:

You can send out your amended post (after you complete the process and add your PAYPAL email address to the list) to the contacts you already have in YOUR email address book! It is AMAZING how fast this works.

REMEMBER...

HONESTY AND INTEGRITY = PROFITABILITY
YOUR NAME COULD CYCLE FOR A LONG TIME! THIS MAKES IT THE GIFT THAT KEEPS ON GIVING.

REMEMBER, THE MORE NEWSGROUPS YOU POST IN, THE MORE MONEY YOU WILL MAKE!!

PAYPAL is 100% secure and is used by millions of people worldwide.

STEP 2:

Here is where the action occurs. The first thing to do is to send a \$1.00 payment to each of the 6 email addresses on the current list from your PayPal account. To do this quickly and successfully, follow these simple steps:

1. Login to PayPal and click on the "Send Money" tab near the top of the screen
2. In the "Recipient's Email" field enter the email address
3. In the "Amount" field enter "1" (This is your \$1.00 payment in USD)

US Dollars)

4. In the "Category" field select "Service" (Keeping it legal)

5. In the "Subject" field type "EMAIL LIST"

6. In the "MESSAGE" field enter "PLEASE PUT ME ON YOUR EMAIL LIST".

By
doing this, you are creating a service and maintaining the legality
of
the system by "paying" for the service.

7. Finally, click on the "Continue" button to complete the payment.

8. Repeat these steps for each of the 6 email addresses. That's it!

By
sending the \$1.00 payment to each address, you are implementing the
compounding POWER of the system. You will reap what you sow!
Here is the current e-mail list: *****

1. josemanuelgood @ hotmail.es
2. brazodehierro @ hotmail.es
3. albertoeuro1 @ gmail.com
4. enriquerodriguez013 @ gmail.com
5. jbfinance6@ gmail.com
6. s_justinekate@ yahoo.com

STEP 3:

Now take the #1 email off of the list that you see above (from your saved file), move the other addresses up (6 becomes 5, 5 becomes 4, etc.) and add YOUR email address (the one used for your PayPal account) as number 6 on the list. This is the only part of the document that should be changed. Make sure your email address is the one you have registered with PayPal

STEP 4:

Post your amended article created in Step3 to at least 200 newsgroups or message boards. Keep in mind that there are tens of thousands of groups online! All you need is 200, but remember the more you post the more money you make - as well as everyone else on the list! I've began to see money roll in before I even hit 100 posts, but try to hit around 200 to allow maximum exposure. Use Netscape, Internet Explorer, Firefox, Safari, or whatever your internet browser is to search for various news groups, on-line forums, message boards, bulletin boards, chat sites, discussions, discussion groups, on-line communities, etc. For example, log on to any search engine like yahoo.com or google.com and type in a subject like; 'MILLIONAIRE MESSAGE BOARD', 'MONEY MAKING DISCUSSIONS', 'MONEY MAKING FORUMS', or 'BUSINESS MESSAGE BOARD', etc. You will find thousands and thousands of message boards. Click them one by one and you will find the option to post a new message. Fill in the subject which will be the header that everyone sees as they scroll through the list of postings in a particular group, and post the article with the NEW list of email addresses included. THAT'S IT!!! All you have to do is jump to different newsgroups and post away. After you get the hang of it, it will take about 30 seconds for each newsgroup.

HOW THE MONEY WORKS:

When you post 200 messages in various forums, it is estimated that at LEAST 15 people will respond and send you a \$1.00 (\$15.00). Those 15 will Post 200 Posts each and 225 people send you \$1.00 (\$225.00), etc. through 6 levels of email addresses. For comprehension purposes, here is an easy viewing chart:

- 1) $15(1) = 15 \text{ people } (\$1) = \$15$
- 2) $15(15) = 225 \text{ people } (\$1) = \$225$
- 3) $15(225) = 3375 \text{ people } (\$1) = \$3375$
- 4) $15(3375) = 50625 \text{ people } (\$1) = \$50625$
- 5) $15(50625) = 759375 \text{ people } (\$1) = \$759375$

As you can see, your \$6.00 has multiplied exponentially. What other opportunity that is as simple as this can cash in the way this can?! I'm not going to say this is going to make everyone over \$800,000, but within a few WEEKS you begin to see results, thanks to the speed of

the internet!

When your name is no longer on the list, take the latest posting in the newsgroups and begin the process again. Simply amazing...

One other tip to speed up the process even more:

You can send out your amended post (after you complete the process and add your PAYPAL email address to the list) to the contacts you already have in YOUR email address book! It is AMAZING how fast this works.

REMEMBER...

HONESTY AND INTEGRITY = PROFITABILITY

YOUR NAME COULD CYCLE FOR A LONG TIME! THIS MAKES IT THE GIFT THAT KEEPS ON GIVING.

REMEMBER, THE MORE NEWSGROUPS YOU POST IN, THE MORE MONEY YOU WILL MAKE!!

THE PAYPAL 6 DOLLAR MONEY-MAKING METHOD

All you need is:

- 1) An email address
- 2) A PayPal account
- 3) \$6.00

WHAT IS IT?????

The idea is that of a system that takes advantage of the power of compounding. And in a big way, let me tell you. First and foremost understand that there are countless spin-offs of this system that try to

make a

"quick buck" off of people. Long lists, the 5 & 10 dollar trees, the birthday systems,

etc... Those spin-offs do make money because of the ease of implementation

of this idea, but they do NOT use the compounding advantage. This system

is THE LEGIT and PROFITABLE one.

Here is how it works...

There is a list of 6 email addresses (you'll see it as you read

further).

Each of these people has already taken part in this system. When someone new comes along (such as yourself) he/she removes #1 off of the list, moves the other five email addresses up one position (i.e. #6 goes to #5, #5 to #4, etc.), and places their PayPal email address in the #6 position. This process is what develops the power of compounding. The bottom line is this

HONESTY and INTEGRITY CREATES PROFITABILITY.

Following this EXACT process is what creates the money, and that is why this system has been raved about in the media. Altering the system creates weak results. The legality of this system comes from the idea that you are of course creating a mailing list, and a "service" is being provided (more on that later.) Now on to how your \$6.00 creates BIG money...

INSTRUCTIONS:

STEP 1:

The first thing to do is highlight and SAVE this entire post in word or notepad on your computer so you can come back to it later. After that, if you are not already a PayPal user you need to go to the PayPal website at [paypal.com](https://www.paypal.com) and SIGN UP. If you want to be able to receive credit card payments from other people then you will need to sign up for a PREMIER or BUSINESS account (not just a PERSONAL account). This is highly recommended to allow others easy payment options. In order to place the initial \$6 into your account, you will have to verify your bank account with PAYPAL (which may take a few days). PAYPAL is 100% secure and is used by millions of people worldwide.

STEP 2:

Here is where the action occurs. The first thing to do is to send a \$1.00 payment to each of the 6 email addresses on the current list from your PayPal account. To do this quickly and successfully, follow these simple steps:

What the fuck did you just fucking say about me, you little bitch? I'll have you know I graduated top of my class in the Navy Seals, and I've been involved in numerous secret raids on Al-Quaeda, and I have over 300 confirmed kills. I am trained in gorilla warfare and I'm the top sniper in the entire US armed forces. You are nothing to me but just another target. I will wipe you the fuck out with precision the likes of which has never been seen before on this Earth, mark my fucking words. You think you can get away with saying that shit to me over the Internet? Think again, fucker. As we speak I am contacting my secret network of spies across the USA and your IP is being traced right now so you better prepare for the storm, maggot. The storm that wipes out the pathetic little thing you call your life. You're fucking dead, kid. I can be anywhere, anytime, and I can kill you in over seven hundred ways, and that's just with my bare hands. Not only am I extensively trained in unarmed combat, but I have access to the entire arsenal of the United States Marine Corps and I will use it to its full extent to wipe your miserable ass off the face of the continent, you little shit. If only you could have known what unholy retribution your little "clever" comment was about to bring down upon you, maybe you would have held your fucking tongue. But you couldn't, you didn't, and now you're paying the price, you goddamn idiot. I will shit fury all over you and you will drown in it. You're fucking dead, kiddo.

Okay, so you expect me to believe that you were the very best that your generation of Navy SEALs had to offer? I highly doubt that. If you were as good as you say you were, i don't think for a second that you would be browsing 4chan. This is mostly a place for jobless neckbeards that still live with their parents, and nerdy high school kids that don't have any friends. It really isn't the place for highly-trained assassins to be hanging out in their spare time. Even if it was, something far worse than a troll being mean to you probably would have set you off a long time ago. What about the slew of gore and child pornography that gets posted here on a regular basis? Isn't that something that deserves a person being hunted down and made to regret their actions? Yeah, you're just not the 4chan type. Sure, there's a wide variety of people that browse here, but you're far from the core demograpic if you are who you say you are (which isn't the case). Even if it were true that you're an incredibly talented soldier, I think all the military discipline would prevent you from getting mad enough to murder some random idiot on the internet. I also doubt that even the best SEALs have a "secret network of spies across the USA". Why would all of the most expansive Big Brother network

in the world be willing to help a troubled PTSD-sufferer hunt down some random kid on the internet? That doesn't even make sense. If you're gonna try to scare somebody, make it more believable than "IM A SUPER SOLDIER HURR DURR". You might frighten a thirteen year old who doesn't know any better, but to most of us you just look like a kid with an anger problem and a very active imagination. Hopefully things will be easier for you when your puberty's over. Best of luck with that... kiddo

Dear 4chan,

Congratulations, you got a reaction from users. That's what you wanted, right? Well, I've decided I don't like people like you. You've messed with the community of the wrong psychopath. Before you get excited, you haven't even made me angry. I am a hard person to make angry. However, I despise people like you.

Your pitiful hacking skills are hilarious. Hacking accounts and putting up proxies are level 1. Can you hack into encrypted files? Can you tear through firewalls without leaving a mark? Your silly little proxy won't protect you. I've hacked into many computers and spied on the users. I've hacked into games. I have been hacking since I had a computer. It's what I was raised to do.

You have no idea to the extent of fear which you should be feeling. All you are is just a community of internet creeps. Have you ever murdered anyone? I have no empathy and I will probably feel joy peeling your skin off your face.

You think I'm giving you an empty threat? Believe that. I have contacts in dark places that you don't want to know about. If you live even close to me you better fear for your life.

Track my IP if you want to, but I am smart enough to use a library computer. Hack into my account if you want, but it'll just make it easier for me to track you.

With love,

A psychopath

P.S. I would fear for your life while you still have it.
