I may be interested in this for my website in development, however would prefer PayPal in all honesty.

T3h Hack3r - March 7, 2016, 9:10 pm

What experience do you have working within Information Security?

Alright. Sorry but I don't have paypal. If you ever want to use my service, you can use an exchanger from here to exchange paypal to bitcoin!

Of course I can if you purchase the Gold package.

I will find the vulnerabilities, exploit the site and then fix em!

Core i5 - *March 14, 2016, 5:35 am*

By failing the project, do you mean not finding vulnerabilities?

If you purchase the Silver or Gold package and I don't find any vulnerabilities, you can ask for a refund.

If you purchase the bronze package, you can't ask for a refund.

If I delay the service more than 4 days you will get full refunded on all packages.
