To begin with, I'd like to recognise that this review is 100% honest and I am not affiliated with the seller. Additionally, thank you OP for giving me this chance to review your awesome eBook!

Grammar ?????

After reading Revenue River, I was unable to find any silly little SPAG mistakes which some eBooks usually have. This means that the process of reading the eBook was very smooth.

Ease of Use ????

The method that is found within this eBook is fairly easy. If you have a little experience in it, you may find it easier than the average reader. However, OP does teach you how to everything step by step so it's unlikely that you'll have any issues. But if you have purchased the premium package and you are experiencing issues then you have full support from A\$AP Rocky.

Layout ?????

The layout of Revenue River was decent. There were a variety of colours here and there, making it more pleasing to read. There are also pictures included on each step which betters your understanding of each part. This is a huge plus in my eyes so that's a bonus right there!

Originality ?????

Despite the fact that I have read a whole BUNCH of money making eBooks, I have never stumbled upon such a method. It is so simple and unique. I personally do not think that this method would be anywhere on HF either.

Overall ????

To conclude my review, I was presented with nothing but a high quality money making method that is guaranteed to make you as much money as you'd like if done correctly in this eBook. After a read, I was unable to discover any SPAG mistakes making the rhythm of reading smooth. The method is extremely easy to follow, even more easy as all steps are explained in-depth. The layout was quite satisfying with pictures on each step so that you know exactly where to go and what to do. This method is completely new to me. I haven't read any single part of this method in any eBook - it is 100% original in my eyes. This will most certainly make you money when followed correctly. This is one of the few eBooks here on HF that will make you actual money. You would be able to make back the money that you invested when buying the eBook back in no time. So I'd recommend to get your copy while you can. You have my vouch, A\$AP Rocky! ?

This is a very shocking and wonderful money making eBook, OP, and I wish you the complete best of luck with the sales!

Else it's violating site terms.

Site rule -

Vouch Begging

No post or PM may contain any request or hint at vouch copies or any other term (as long as the spirit is asking for a product for free). Vouch copies are to be given out at the sole discretion of the user by clearly posting in his thread that he is giving away or has given out such copies. This option is not for posts vouching for a user (which breaks no rule).

OP never stated that he is no longer giving out vouch copies and never stated how many vouch copies he is giving away. Therefore it is not vouch begging as I understand it.

OP's Vouch Stance as of now:

Vouch Copy may be given out to someone I see fit

Official Rule:

Can I ask for vouch copies?

Not unless the OP (original poster) has clearly stated that vouch copies are available. This is the rule in the entire marketplace. You can't ask for them in PM either unless OP stated you can do so.
