Skype is a free and open platform owned by Microsoft that allows you to make free voice and video calls to people all over the world. Well they do not have any limitation unless you are making calls to more than one person. If you have a larger group then you might face some problem as skype has implemented a large group restriction and if you want to make video calls to whole group then you cannot unless you get there premium account, but yes they even come up with many promotional offers that simply allow you to grab there premium account for free.

Well earlier I Searched many different ways of getting free premium account but all those ways get dug by time, so today we have another great promotional offer that will allow you to make free calls worldwide using its 1 month free package scheme.

NOTE Well as mentioned above free calls worldwide, it might not have your country in the free list section, so make sure you check your country status before getting this promotional offer + you need to have access to any credit card that you will link to your account as you need to authenticate the \$1 payment but that will be refunded to your account instantly.

Visit Skype's Offer Promo Page.

Now just click on Get your Free 1 Month.

Now on the next page it will ask you to enter your billing details, after you have entered your billing details just press on Buy Now.

That's it now your \$1 will get deducted but soon you will receive refund from Skype in just minutes.

So guys now you have purchased the 1 month free calling subscription from skype and that too for free, so have fun and make sure if you are not willing to pay for the another month, you should cancel your subscription by the ending of the month, else you will be charged with another month.
