Who Are We?

Legends is a diverse group not fixed on a particular agenda. Marketing, programming, hacking, you name it - but only people who make the cut will be accepted. We strive to contribute, teach and learn as individuals. We do not consider prestige or reputation to increase any chances of getting in Legends. We expect high quality members willing to contribute to our group as well as the community - we always welcome such members wholeheartedly.

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

Requirements

We do not have any specific requirements for applying to our group. If you feel you have a chance of entering this group, then you are free to apply.

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

Notification To All Applicants

We do not consider rep, awards, prestige or status to be a deciding factor. You must be willing to be an active member of the group and participate in group activities & contributions. We do not endorse inactivity within the group. Please revise your application before posting it. We expect applicants to be truthful in their applications. Do not contact the leaders or the group owner regarding the status of your application. Applying via userCP instantly gets you into the groups' blacklist. Selected applicants will be interviewed through Skype or any IM service of their choice. Good luck to everyone who intends to apply!

Good luck to everyone applying here. Please keep the thread clean and don't spam it with Off-Topic posts or Low Quality applications. Such posts will be reported and would result in further consequences. If you are not accepted in this wave of recruitment, you can apply when the next wave of recruitment is open. If you do not make a serious application or somehow fail to convince us, you will most likely be denied. Don't make ugly applications, take time and efforts. Looking forward to see great applications. ?

Ongoing - March 7, 2016, 1:40 pm

A line or two about you:

Hi, my name is Ongoing(well my alias is). I'm a 21 year old Canadian male mixed with Jamaican and Portuguese. I have been in multiple groups and have always been an active member of the group and the community. I try to get along with everyone because I hate having enemies just as much as the other guy does. Finding jobs in real life is a little hard for me because I have a speech impediment so job interviews and talking to the general public doesn't go so well for me. I'm trying out different things and I've found a few ways to make some money online and I plan on investing in a few things because I would like to someday run my own company, online or in real life.

List of skills: {List only}{Don't lie about it. You will be tested over every line you mention. Provide on/off-site examples of your work.}Game server hosting/management

[img]http://s9.postimg.org/57pm7cwyr/LEGENDS_2_0_HEADER.png[/img]

A line or two about you: Well, I am person that really loves to experience new things. In fact, I have

recently learned three instruments in the past two years (Guitar,Bass,Drums) because they fascinate me, and I really wanted to learn it, so I did. This also goes for thing like maybe GFX, I knew really nothing about it not too long ago but I eventually learned and now am pretty fluent in that field. And now my most recent thing I am learning; gmod lua. I have recently started my own gmod server about a half a year ago and I have learned a lot in my time coding it. This is part of the reason I am interested in this group, programming because even though I am not the best at what i'm doing, I still have a good idea about it along with the ability to help others and exchange knowledge which I hope to do if i get accepted.

List of skills: {List only} GFX I love doing this and always open to help anybody with it whether it be a simple thumbnail or maybe a thread design or a picture for a product that people would like to sell. Video Editing I love doing this and as always, always open to do favors for people, maybe even a trailer or product overview video for a product or something along those lines.

Gmod Lua Now even though I am still a bit new to this, I have a good amount of knowledge of this and would love to exchange idea with other members about different types of code to grow my and possibly another members knowledge base. For proof of my gmod server the name is "PandaRP". If you want to join it to authenticate or something I can give you IP if you really want.

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

Are you a developer, marketer or advertiser? Developer, and I am not so sure what making GFX for products would fall under but that too :)

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

Contributions we could expect from you: From me, you can expect my input on discussions, maybe even some giveaways once I get in a slightly better position too.

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

Notable threads, if any: From my small time on HF, I have a few threads that I have made:

[My free small favor thread \(Currently over 190+ replies and still going on\)](#)

[My free instagram likes service \(Cost me quite a bit of money to do hence the reason I am not doing anymore\)](#)

There are also a couple more threads where I do various things for people but I don't and i'm sure you won't consider those notable.

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

Five things you would do for the group once you are accepted: Giveaways

Some tips on things that may be confusing to some people

Small investments to maybe help get a new product going

A tester for all of your needs

Maybe some custom designs

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

Current products or services : I currently not selling any products but I am like I said still running my small favor thread.

[img]http://s9.postimg.org/jzubyp2v3/LEGENDS_2_0_DELIMETER.png[/img]

My extra conclusion: So there you have it, my group application. I know that I am no top brain programmer or anything like that but i'm also not illiterate to these kinds of things. I still have knowledge of these kinds of things. And plus, if I do happen to get accepted into this group, I can learn and grow my understanding for this more and that would be wonderful for a group on a forum site help me grow as I help them. Well anyway, all I ask is that you read through my application all the way. I hope I get accepted and of course if I don't there is nothing i can do about it but I would still love an opportunity in what I have heard a truly wonderful group! Thanks for reading :)

I know I don't have many notable threads but I've only been a member here for about 2 months now, I intend on making many more notable threads in the future. If this is a problem for you accepting me into Legends then no hard feelings.

Five things you would do for the group once you are accepted:

1. Host a Member upgrade contest, Regular -> L33T in the name of Legends.
2. Offer my services/knowledge to anyone in Legends free of charge.
3. Create at least 1 memorable thread that contributes to the community of Hackforums in the name of Legends.
4. Host an Award giveaway (any \$20 award of member's choice) in the name of Legends.
5. Promise to only bring High Quality content and tutorials to Legends subforum.

Current products or services :

None at the moment, I need a good community of people (like Legends), to help me out in this section.

Thanks for taking the time to read my application, I look forward to becoming a member of Legends. If I'm not accepted, I know a more deserving member will be accepted who can bring more to the table than I can. If you give me this opportunity I promise I won't let you down.
