I won the giveaway for a 2 day trial (<https://hackforums.net/showthread.php?tid=5196708>) have been using for a little bit now and its amazing, everything works as advertised, connecting to a server is very quick, very easy to setup the VPN as well (Literally a click).

High quality support, responded to me very quick when I had a question.
This is one of the best VPN's I have ever used, and I've used a lot.

I rate this VPN 10/10 for its design and its high quality servers.

Thanks for letting me use this Minted, I vouch for this VPN.

Basically mate i need to make a RAT. And your price and some of the vouches here made me think to buy it. But i have a question : I need the RAT for a long time, but somehow i don't know how much your lifetime will be ?

Lifetime typically refers to the lifetime of the service, which in no cases can be guaranteed - but as long as a service is financially stable, I'm assuming your plan will continue.
