Thread: [NEW! - Xbox Live Gold Method - Get unlimited amounts of Xbox Gold](#)

War On Retail - March 7, 2016, 11:11 am

Hi guys I am going to finally sell my xbox live gold method.

I have had a lot of messages telling me the price I should ask but I am going to ask an even lower price than that.

However I am only selling this method to three (2/3) people.

The price is \$50 to the first person who buys it and \$75 to the other two.

EDIT the \$50 is taken now the next two orders will be \$75

I am not giving any vouch copies so please do not ask.

I will say to do this method you need a debit/credit card but can be a store bought one. (no purchase needed)

If you are purchasing then know the only way I accept payment is either by using western Union, money gram, BTC, AMC's.

I do not accept paypal NO MATTER WHAT.

I will under no circumstances go first I do not care if you have more/better rep than me. You came to me you will pay then get what you paid for.

This is not for the most ethical people. But with that said you will not get into any legal issues so its not like that.

Please PM if you are interested and ask any questions you have that I might be able to answer without telling you any clues as to the method.

I want to go ahead and add this too. I have a guy who buys all the codes I get which I dont get much since I do not do this all the time though i could.

I will give whoever buys this method his contact information if he allows me to so they can sell to him if they wish to.

He buys bulk. and pays \$5 per 1 month code and \$15 per 3 month code. though you guys could make another deal if you wish.

If you wish to buy and want a discount I might give you a discount under the terms of you giving me free codes like 2-5 codes a week.

Discount would be discussed Via PM or Skype

lemme guess

keep making new accounts so you get one free month of live all the time? what a great method.

theDuke - March 7, 2016, 11:26 am

Is the live only able to be put on one account? Or can you sell them?

War On Retail - March 7, 2016, 11:31 am

I had to edit my last response since I actually have two methods I forgot which one I was selling but either way guys with either one of my methods you will get a code you can put onto ANY account you wish. I will say this though with one of my methods you do have to put in an investment but with the investment you will get about tripple what you invest in return. The other method (the one I am selling) does not require you to purchase anything. you will literally spend \$0.00 and you will get a 1 month xbox live cod eto use on any account you wish.

You can sell them if you want.

Webmasters - March 7, 2016, 11:33 am

Do you have any proof of the method actually working? Anyone to vouch for you, or anything like that? If so let me know, may be interested.

Well I do have two people who work for me but neither have an account on here. But I do not need a vouch. Once one person buys it they will be able to tell everyone how easy it is and how well it works.

Lo?r - March 7, 2016, 11:38 am

Sent op a pm.. Hope we can do some business

War On Retail - March 8, 2016, 8:47 am

Hey guys I have this method sold to someone not on this site so there are only two spots left to buy this. I will still keep the first purchase for sale on this site at \$50 the second is \$75. only two left.

Also I posted my other method I have for sale as well only going to sell one copy of that one though since it is new and better as far as you can make more money.

PleasantBeing - March 8, 2016, 1:53 pm

Hey Ive lurked around the xbox forums my whole tenure here. I am most certianly interested in the investment propostion you put forth. I think we'd both find it mutually beneficial.

Sorry I would need someone who would be able to spend more than an hour or two doing this method for me to invest in them.

Omoi - March 8, 2016, 4:35 pm

Are you seeing them, I mean it's pretty easy to edit a few digests on a code

War On Retail - March 8, 2016, 4:43 pm

So you think if I show parts of a code it makes it legit proof?

I am not able to show proof without either giving out the method or giving out free codes. though if this one guys doesn't buy the 7 months of codes I have now I might just give out one or two in some fashion. But just because I give out a few codes I would still not think it was proof of my method.

Supreme_ - March 8, 2016, 4:47 pm

how long does it take to produce a code from scratch? how much work needs to be put in? is it SEing? I'd be interested

It takes me personally about 15 to 20 minutes to get a code. it probably took me 30 minutes the first time I found this method.

As far as work, Well since everything is done on the computer I would say not much at all lol. Most of the time is waiting or at least half of it.

oh and you do have to SE if it is what I think SE means. Sales Engineering ?

ALSO GUYS I want to tell you now it is not that method where you say something like my account was hacked can you put my live on xxxxx account or where you say can you pause my time please I will be gone and wont be able to play ect...

My method you will not say you were hacked or that you cant use the time ect... I bought that ebook too but those methods worked like 1/20 time for me. I adapted and came up with a much easier method which works more like 19/20 times.

ALSO No Phishing involved. You do not need someone elses account to do this. like I said it is not illegal but yes there is SE'ing

Emin - March 8, 2016, 5:21 pm

I can invest SOOO MUCH time into this, I have no other way of making money, so I would be able to work on it for like 5 hours a day. PM me if I can do the investment one.

PM me if I can do the investment one. Sorry I do not think you are reputable enough on here for this. I am looking to invest by giving it out to a select few but I think I might have the guys I am going to chose to do this with already. Though I am not sure on it. I do not wish for this to get patched since it is a proven method I have used for almost two years.

Plus a lot of guys who message me saying what you say go to college or work and can not put 5 or more hours a day into this.

Kioshima - March 8, 2016, 5:53 pm

SE is Social Engineering. Exploiting Microsoft for codes.

Well then yes is is exploiting microsoft for codes since it is microsoft who gives you the codes

nicbtc - March 8, 2016, 8:46 pm

You get Gift cards for \$x amount or live gold memberships?

Is it white, grey or black hat?

Regards!

War On Retail - March 8, 2016, 8:50 pm

You get 1 and 3 month xbox live codes for \$0.00 (free)

And I want to say it is whitehat but just in case I will say it is greyhat.

it involves a little SE'ing is why I say that. but you do not phish accounts or hack accounts in any way.

you can use these codes on any account you wish. and you will not get banned which most methods out there will cause you to do.

Silent - March 8, 2016, 9:14 pm

Is this the method where you either set up a fake xbox live generator page or something and people put in there info which you get and then go to chat and tell them your leaving or like take it off, then change all details, then contact them saying you got hacked so you double it up?

Woops nevermind didnt see your previous post. Last method I bought was public so ill stick with nothing for now.

?Criminal - March 8, 2016, 9:19 pm

Is this the advocacy team se method? cause that still works time to time.

@Jupiter - March 8, 2016, 9:22 pm

This is something I could do all day for. But with no back up or vouches, unfortunately I don't see a push to purchase

War On Retail - March 8, 2016, 9:30 pm

No it is not

Nope not that either.

And I should have a vouch tomorrow if this person buys it like he says he will.

Guys this is not a method where you have to steal someones account or anything like it. Also this method is not one of those where you will say it works from time to time. It works every time.

Yeah method is pretty obvious now. Your investment is a joke btw. A few hours of anyones time shouldn't be worth so little.

The method might be obvious to you but I will assume as I do with most who say that that you still do not know it. I have had a lot of people say that to me then when I ask them to tell me what they think it is they still do not know it but I will PM you and ask you the same as I have asked them to see if you have figured it out.

No sorry that is not it. You do not have to have someone elses account to do this.

You can do this with your own accounts.

ALSO GUYS someone has purchased this method today so you will get a review soon

War On Retail - March 13, 2016, 9:03 pm

I still have two copies of this for sale.

and you get xbox live codes not gift cards

No it has nothing to do with the G2A method

Supreme.tm - March 14, 2016, 4:51 pm

Does this involve, stripping a xbox live account of its gold and reselling the code? Or buying a code, redeeming in then stripping it to duplicate it into two codes? Also how many can you make a week?

I am not sure what you mean by redeem a code then stripping it? But you can make as many as you want a week it really depends on how much time you want to invest into it. I personally can average 3 to 6 codes and hour but I could do more with my advanced method though i do not use that method often but only because it is multi tasking and very time consuming.

I will say this though you can use 1 code to turn into 2 which makes it faster but you do not "Need" to do that to do this method. It simply makes it a lot faster.

Sent you a PM with my skype also only selling two more copies of this but I do have another method I am selling you may look up through my threads

War On Retail - March 16, 2016, 4:43 pm

still for sale if anyone wants to buy hit me up

War On Retail - March 20, 2016, 9:22 am

Two copies left hit me up if you want to buy. Or if you want to buy out the method for an even \$100 we can work a deal out as well.

War On Retail - March 23, 2016, 10:06 am

Still have two copies left the first copy was sold but I am not sure what has happened to the one who purchased it. It seems he just vanished lol No response from his after he told me he was going to look it over and then then get back to me with questions. He might just have some real life issues atm. But I will cut the price for the next one to \$50 as well for someone to vouch the method
