Thread: [Imgur uploading LQ? Anyone?](#)

TRAUMA - March 7, 2016, 1:36 pm

Anyone else having problems uploading to imgur? since yesterday everything ive uploaded is turned out to look LQ..

Yea you need to swtich sites.

I saw a thread on here where the OP showed 2 same images one from imgur and one from another site.

Imgur was VERY LQ

Just swithc brother

Uh oh, Chase is back.

OT: Nah it's fine for me

Krew - March 7, 2016, 1:38 pm

Imgur downgrades the quality of images to save bandwidth.

Have been doing that since the launch of imgur though..

Imgur used to work great.

Here's a GYAZO:

Here's imgur's upload:

Imgur compresses images to save space and time because it's not an image host, it's an imageboard for sharing funny/cool pictures (so quality is less important). You should be using Snapie.net or Cubeupload.
