As you see in the title, i want to know where the keys come from

I just want to know a little more about all of this. And i they can do it (getting keys). can i also get it then??

I know of a website that supplies keys if you want to make such sites, however, I don't know where such site gets the keys. Kinguin also lets people sell on their marketplace so they can get their keys from anywhere.

There's only stores like Kinguin, G2A, G2Play and stuff to get them cheaper. Don't know any other place that does it super cheap.

From what i have heard/read most of those site are able to sell these keys cheap because they stock up on them when steam has a sale. Hope that answered your question
