Looks pretty nice. Any known bugs/exploits?

DataDumper - March 8, 2016, 3:14 am

I know some sql injection there but the version i am selling is fixed by me. No bugs with payments donaldcoin.com started few months ago and profit really well.

Chan Wong - March 8, 2016, 3:15 am

Isn't that script like a ponzi scheme kinda thing? I swear I saw this earlier (a little different) that was a scam...

DataDumper - March 8, 2016, 3:17 am

I dont know the script. Scam? What u mean that the payment was not proceed?. U can register on donldcoin.com they payout just after u click the payout button, auto payment. And i am selling exactly the same script.
