inb4 ban, analysing this to seee if it's a trojan, witch I bet it is :D

**Jeyreyy** - March 9, 2016, 8:40 am

inb4 ban, analysing this to seee if it's a trojan, witch I bet it is :D  
will see ^^ go VM

**sam292** - March 9, 2016, 8:41 am

THANKS VERY GOOD CRYPTER BUT 1/55 NOD DETECTION BUT IS GOOD THANKS

**Mace** - March 9, 2016, 9:03 am

yup, it's a virus, don't download it.  
the "crypter" ran, and then disapeared (no gui), and then it melted (removed itself).  
ban this user.

**aesad** - March 9, 2016, 11:54 am

This file looks suspicious. Probably backdoored.

**AtiPLS** - March 9, 2016, 12:32 pm

It's a rat, but a very noob one, i find out thats a rat i removed like in 1sec, and deleted the rat

**.187.** - March 9, 2016, 12:36 pm

RAT connects to 41.251.122.246

**crimsoncypher** - March 9, 2016, 1:10 pm

And about an hour after this was released here, some idiot decided to use it to crypt a file, and vulnerable people here got hacked probably.

VC crypter. Really bro?

<sup>1337</sup> - March 9, 2016, 9:16 pm

It's infected it drop conhost.exe[PID:5784] ,don't download!
