I don't keep up with DJ Khaled because he's a fucking moron but I love Ellen so here I am!

For some reason it really annoys me that a fucking moron like this is a millionaire but LITERALLY LISTEN TO HIM TALK HE'S A FUCKING MORON HAT DOES HE EVEN DO

Sorry, I just really can't stand when morons get lucky. Opinions? Opinions on DJ Khaled?

He was always famous from putting good artists together on a track and then when he made his snapchat that's when people really started to know him. You're going to see him all over now.

He made it through some how.

Whether or not I agree he should have, he did anyways and he has respect from me for that.

I always see him in memes and stuff I guess he makes music or something? I'm also very confused on exactly what he does also though.

Like I get he's like nice and positive (in an autistic kind of way) but I'm nice and somewhat positive and I'm not a millionaire.

Well he made money off his music not his snapchats and everything like that.

He's probably a massive inspiration to a lot of people.

I understand where they're coming from.
