Omoi - March 9, 2016, 1:13 pm

So I do not normally like romace animes or slice of life however decided to start a few, reason I hate romace animes because of how the story plays out.

So toradoral characters are fucking amazing and the story is really annoying and keeping you in guard.

Liked that they ended up with each other. BUT FFS YHE FUCKING ENDING.

That was so fucking annoying and this is now one of best animes I have seen I fucking love hate it.

Fuck am so annoyed ATM.

Why do I have the feeling you're going to love [Golden Time](#)? (° ? °)

Watch it, it's made by the same creator of Toradora!

Ang?I - March 9, 2016, 1:23 pm

Yeah Toradora sucked.

Is it the same type stupid fucking ending.

Oh let's end it with him getting FUCKING headbut wtf

neightworks - March 9, 2016, 2:54 pm

Amen, the ending gave me cancer.

Stupid ass Tsundres not saying 'I love you' back.

Zexo - March 9, 2016, 2:55 pm

It was a wild trip for me but overall I really liked it.

iMew - March 9, 2016, 3:07 pm

It's easily one of the most overrated romance anime. The ending was just the final nail in the coffin of a show that kept shitting itself every few episodes with one of the worst main girls of all anime. ("hurr durr look at me I'm a tsundere xP", most average harem anime do a better job pulling that character type off)

They should've given other characters the spotlight, at least those were a bit interesting.

When I kill you, please do not die silently.

Tbh I would love an Ami spinoff (I assume that's who you're hinting at, knowing you).

Fuck the haters Toradora is one of my all time favorites. Want some closure read the video game ending for Taiga.

Happeh - March 12, 2016, 3:31 pm

Then you didn't really understand the character developments of either person. They were never like that and Taiga especially cannot deal with feelings so she uses violence as a way to avoid the awkwardness.

Well, what more could they build onto it? They wrapped up everything.

Spin offs, other characters, what happen after high school even a movie would be alight. I dislike most anime movies however I would watch a Toradora one.
