hugsyou - March 10, 2016, 8:40 am

Since 2014 I have been into sports gambling. Only recently to commit to it daily. Win or lose I will post what I put my money on and you can tail or fade it doesn't make much of a difference to me. Only posting a few of my picks not all of them. I try to look around everywhere before placing a bet to get some reassurance and if this thread becomes a resource for anyone then I will of done something positive. Leave your feedback and your own predictions below!

Playing hard yesterday they looked pretty gas in the second half and defiantly OT. Nonetheless, today was a good day made a pretty penny on Wickmayer, Baylor and NC.

I like all the games on the bottom slip. I also have Michigan parlay with conn and then Conn on another slip as well. Believe it or not I was debating making a e sports parlay but I never got to it. Fnatic is playing mouzsports on Dust 2 and Cache.. should be easy win on one of them.. might wanna hop on that but its -500

Super hyped for the uconn match though gonna be a good one

Syracuse has the best zone defense in the country. Expect a close low scoring game. In the high
50's low 60's.

It wasn't the coaching, it was the play. You can have the best coach in the NBA and still lose.
Missed layups, gave up open shots, turned the ball over, like fuck.

No, Syracuse won. They drove in the whole game to get Virginia in to foul trouble, and when that was accomplished, they stole it away from there. The 2-3 zone is the hardest defense to beat, especially playing against the team who invented it.

Yeah it's possible. A lot of times the warrior games spread give a lot of points to a team that can cover easily. Wouldn't bet a lot on it though.
