Pretty much this. Don't advise contacting them without reading the [Help Docs](#) tho.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Or you can just PM [Omniscient](#) or anyone from [Staff](#). But again, make sure you read the [Help Docs](#).

You can contact omni but he will go by what is in the help documents without any question.

If you think he will be lenient about something, he probably won't. Good luck :)

I simply live with my cousin who had an account on HF, so obviously it's going to be the same IP. Having 1 matching IP does not necessarily mean you are a multi account; however, 13 is just too suspicious.

I was just giving you a hard time.
Yes 13 is absurd.

Then why is your IP matching thirteen other members?
