Thread: [Free Music Production Service](#)

I will produce instrumentals for free only for 1337 & Ub3r as it is a little time consuming. You can use them in your song or whatever it is all cool. I know this is a weird free service but I am just trying to find ways I can give back to the community.

Just tell me what genre you want me to make a beat for and if you want a speciic style just let me know.

I'd like a beat for my site. Something like a spooky edm or what-not. That's kind of hard to explain. PM for site so you can see what I mean.

Could I get an intro music jingle for a YouTube gaming channel? (<https://www.youtube.com/channel/UCcwerZ5ByuPn1V1TsLSW0Ow>). Preferably with some chiptune with EDM/Trap genre?

Cheers,
FnJ

Hello, I would like something catchy for the intro of a youtube video as well. Preferably for a Electronic/EDM type of theme thanks!
