Some of you might now I got lured for 50m couple days back.

Well it happened again. But with around 14m. Not a lure but... I was stupid.

Some guy came up to me randomly asking can I do a fcape for him I was like yeah sure. He said he can pay first and stuff, alright cool. Fine with me I ain't gonna scam him for his 10m he promised

Then I did the fail. He said he want's me to be on teamviewer with him so he can login. But AFTER I gave him the info about my teamviever he told me to show my bank to him in a trade. And God knows why I did it completely forgetting that I still had my teamviewer on. And because I don't know how to use teamviewer I was not able to stop him. I turned of my PC from the power button to atleast save my used guthans. Now I'm sitting here with only my guthans, bank being worth like nothing.

The problem with me is that I go into a retard mode too many times. I put down my guard, so to say.

I trust people I shouldn't (happens in real life too...).

I thought the lure was enough. But no. Once retarded, always retarded.

Fuck my life I have ruined my RS career now twice.

How could I do money with like 10m to use. Combat 94. Decent skilling stats (55-70 in all). I thought runecrafting. Might give it a shot.

Thank you if you read, would like some answers and roasts how fucking retarded I am or something.

TL;DR: I won't learn from mistakes and still I am stupid. Lost Around 14m ish.

join the HF cc and stop trusting random people! I notice a lot of different "scams" and they are a lot more complex than back in the day so I will give you that but no excuses.

Neighbor - March 13, 2016, 11:59 am

Mate, i've had 300m jacked from me, then additional 200. Then now almost 80-100M all because of my mistakes, just rebuild if you like the game.

I was in this clan chat (Mr mammal), and a similar thing happened to me. But as soon as the guy said that he wanted to see my bank over TV and not skype, I knew that he was trying to fuck me over.

You are the kind of people I hate in this world.

I've seen your rude and retarded posts before, makes you seem like a 12 year old, which you
propably are.

The type of guy no one right in their mind would like.

Sorry I propably sound butthurt or something but not in the mood right now. Not here to start a
useless fight.

Overcome - March 14, 2016, 12:54 pm

That sucks :(There are a lot of salty people out there that will step over you to get ahead. I was
scammed for 50M way back in like 2007-2009 (which would be significantly higher now) at a house
party. The host kicked us out of the boxing ring when I was very low hp and like an idiot I accepted
his "karambwan" fish and when I ate it I died from poison.

It's awful, but it teaches you to be more alert of other player's hidden motives.

Viagra - March 14, 2016, 3:25 pm
